Getting the books Question Paper Of Jsc Exam 2013 now is not type of challenging means. You could not only going considering ebook buildup or library or borrowing from your connections to right of entry them. This is an extremely simple means to specifically acquire lead by on-line. This online statement Question Paper Of Jsc Exam 2013 can be one of the options to accompany you past having extra time.

It will not waste your time. say you will me, the e-book will entirely way of being you other event to read. Just invest little mature to gain access to this on-line message Question Paper Of Jsc Exam 2013 as with ease as evaluation them wherever you are now.

Trends in the Judiciary Sep 09 2020 The term judicial opinion can be a misnomer as rarely are judges' true feelings on legal issues and the work they do made available to the public. Judges are constrained when writing decisions to follow the law and leave personal commentary aside. Through a series of revealing interviews, this book gathers empirical data from judges and justices from different legal systems to provide a scintillating look at how they view their jobs and cope with difficult legal matters. Interviews are conducted according to strict guidelines with a standardized format for consistency. Each chapter begins by describing the region and its style of judicial governance. This is followed by an interview with a judge or justice in the particular jurisdiction. They discuss their careers, personal judicial philosophies, the problems and successes they've experienced, and how theory influences practice in their jurisdiction. Many also discuss transnational relations and several chapters include glossaries that explain unfamiliar terms and acronyms. Each chapter concludes with the interviewer's assessment and observations. This structure allows readers to easily compare the views of judges and to see the similarities, the differences, and the uniqueness of the different legal models and systems. *Trends in the Judiciary: Interviews with Judges Across the Globe, Volume Two* is the seventh publication in the *Interviews with Global Leaders in Policing, Courts, and Prisons* series. The broad-based coverage of varying viewpoints in this text encourages a great breadth of understanding of global justice.

Ethics in Counseling & Psychotherapy Oct 11 2020 Revised to reflect recent ethical, legal, and professional developments, Welfel's *ETHICS IN COUNSELING AND PSYCHOTHERAPY* prepares readers to deal effectively with the issues they will confront in practice. The book's ten-step model for ethical decision making guides students and practitioners as they work through and analyze complicated ethics cases that demonstrate some of the most challenging dilemmas they will face. Updated to integrate the new 2014 ACA Code of Ethics, this edition also explores how technology (including social networking) relates to ethical issues, and discusses the ethical issues that may arise when counseling clients from different cultural backgrounds, clients with disabilities, older adults, and clients at risk of harming others and themselves. The text familiarizes readers with the field's key scholarly writings and, by examining emerging ethical issues, enables students to advance beyond their basic awareness and knowledge of the professional codes of ethics. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Human Rights Law Feb 01 2020 This textbook comprehensively examines and analyses the interpretation and application of the United Kingdom's Human Rights Act 1998. The third edition has been fully updated to include the last seven years of case law. Part I covers key procedural issues including: the background to the Act; the relationship between UK courts and the European Court of Human Rights; the definition of victim and public authority; determining incompatibility including deference and proportionality; the impact of the Act on primary legislation; and damages and other remedies for the violation of Convention rights. In Part II of the book, the Convention rights, as interpreted and applied by United Kingdom courts, are examined in detail. All of the key Convention rights are discussed including: the right to life; freedom from torture and inhuman or degrading treatment or punishment; the right to liberty; fair trial; the rights to private life, family life and home; freedom of religion and belief; freedom of expression; the right to peaceful enjoyment of possessions; and the right to freedom from discrimination in the enjoyment of Convention rights. The third edition of *Human Rights Law* will be invaluable for those teaching, studying and practising in the areas of United Kingdom human rights law, constitutional law and administrative law.

Murphy on Evidence Sep 02 2022 Fully updated, 'Murphy on Evidence' bridges the gap between the academic and practical treatment of the law of evidence. Written by an author with many years of experience in both practice and teaching, this book contains a comprehensive academic analysis of the law and a wealth of information on how the law is applied.

Recent Evolutions and Perspectives in Olympic Winter Sports Performance: to PyeongChang and Beyond... Oct 23 2021 An evidence-based scientific understanding of factors determining Olympic winter sports performance, recent changes, the evolution in training content and methods, the improvement in technology as well as the occurrence of injury and illness is required. On one hand, this would provide the opportunity to translate research to practice. On the other hand, to guide the practice of Olympic winter sports with the ultimate goal of improving the performance. Certainly, the continued evolution of Olympic winter sports has contributed to an enormous accumulation of knowledge, evidence, and relevant training technologies. Sports sciences, including physiology, conditioning, nutrition, biomechanics, coaching, psychology, as well as sport technology, history and social sciences, have much to contribute to the preparation of the athletes in the Olympic winter sports. Consequently, this Research Topic sought to provide a platform of contributions to set out a comprehensive framework of the components that should be addressed when developing training plans leading to elite Olympic winter sports performance. Overall, the papers were all directed toward a better understanding of physiological, biomechanical, and training factors related to different Olympic winter sports disciplines: cross-country skiing, alpine skiing, biathlon, Nordic combined, speed skating, snowboarding, and ski-cross.

The Judiciary, Discrimination Law and Statutory Interpretation Jan 26 2022 In 1856, the US Supreme Court denied Dred Scott, now free of slavery, his Constitutional rights, solely because he was black. According to the Court, when the Constitution was drafted, some 60 years earlier, its authors would not have intended that 'a subordinate and inferior class of beings' qualified as citizens of the United States. Thus, the meaning of language drafted over half a century before was frozen in time. This case, perhaps more than any other, demonstrates that the matter of statutory interpretation is critical, technical, and, sometimes, highly emotive. The case is not a mere nugget from history to indulge our disgust with values of another age, and with it a satisfaction of our progress to today's higher moral ground. It is the unfortunate case that the senior courts of England continue to produce highly contentious interpretations of our equality and discrimination laws. This book examines these cases from the perspective of statutory interpretation, the judge's primary function. The scrutiny finds the judgments technically flawed, overcomplicated, excessively long, and often unduly restrictive. As such, this book explains how the cases should have been resolved – using conventional methods of interpretation; this would have produced simpler, technically sound judgments. Rather like the case of Dred Scott, these were easy cases producing bad law.

Environmental Crises in Central Asia Jul 08 2020 Environmental conditions do not exist in a vacuum. They are influenced by science, politics, history, public policy, culture, economics, public attitudes, and competing priorities, as well as past human decisions. In the case of Central Asia, such Soviet-era decisions include irrigation systems and physical infrastructure that are now crumbling, mine tailings that leach pollutants into soil and groundwater, and abandoned factories that are physically decrepit and contaminated with toxic chemicals. *Environmental Crises in Central Asia* highlights major environmental challenges confronting the region's former

Soviet republics: Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan, and Uzbekistan. They include threats to the Caspian and Aral seas, the impact of climate change on glaciers, desertification, deforestation, destruction of habitat and biodiversity, radioactive and hazardous wastes, water quality and supply, energy exploration and development, pesticides and food security, and environmental health. The ramifications of these challenges cross national borders and may affect economic, political, and cultural relationships on a vast geographic scale. At the same time, the region's five governments have demonstrated little resolve to address these complex challenges. This book is a valuable multi-disciplinary resource for academics, scholars, and policymakers in environmental sciences, geography, political science, natural resources, mass communications, public health, and economics.

Law of Evidence in Nigeria Apr 16 2021 The Evidence Act, 2011, repealed the old Evidence Act. In doing so, the new Act introduced some changes in the Law of Evidence. Ever since, there has been an urgent need for scholastic guidance, in the proper approach to the interpretation of the provisions embodying those changes. This is particularly so, as the courts have been issuing contradictory interpretations of these provisions. In his new book, *Law of Evidence in Nigeria: Practice and Procedure*, the veteran author and urbane man of letters, Professor Simon Uchenna Ortuanya, masterfully plumbs the intention of the draft's persons of the Act. The result is a five-hundred-and-forty-page treatise of redoubtable erudition. The succinct titles of the different chapters are quite captivating just as the logical presentations of ideas are very illuminating. The book bears the imprints of the erudite author's versatility in the Law of Evidence - a course he has taught, admirably, in two public universities years.

Steeped in the Blood of Racism Feb 24 2022 Minutes after midnight on May 15, 1970, white members of the Jackson city police and the Mississippi Highway Patrol opened fire on young people in front of a women's dormitory at Jackson State College, a historically black college in Jackson, Mississippi, discharging "buckshot, rifle slugs, a submachine gun, carbines with military ammunition, and two 30.06 rifles loaded with armor-piercing bullets." Twenty-eight seconds later two young people lay dead, another 12 injured. Taking place just ten days after the killings at Kent State, the attack at Jackson State never garnered the same level of national attention and was chronically misunderstood as similar in cause. This book reclaims this story and situates it in the broader history of the struggle for African American freedom in the civil rights and black power eras. The book explores the essential role of white supremacy in causing the shootings and shaping the aftermath. By 1970, even historically conservative campuses such as Jackson State, where an all-white Board of Trustees of Institutions of Higher Learning had long exercised its power to control student behavior, were beginning to feel the impact of the movements for African American freedom. Though most of the students at Jackson State remained focused not on activism but their educations, racial consciousness was taking hold. It was this campus police attacked. Acting on racial animus and with impunity, the shootings reflected both traditional patterns of repression and the new logic and rhetoric of "law and order," with its thinly veiled racial coding. In the aftermath, the victims and their survivors struggled unsuccessfully to find justice. Despite multiple investigative commissions, two grand juries and a civil suit brought by students and the families of the dead, the law and order narrative proved too powerful. No officers were charged, no restitution was paid, and no apologies were offered. The shootings were soon largely forgotten except among the local African American community, the injured victimized once more by historical amnesia born of the unwillingness to acknowledge the essential role of race in causing the violence.

Secondary School English Education in Asia May 18 2021 Continuing on from the previously published *Primary School English-Language Education in Asia: From Policy to Practice* (Moon & Spolsky, 2012), this book compiles the proceedings which took place at the 2011 annual conference of AsiaTEFL which took place in Seoul, Korea. It surveys the current status, practices, challenges, and future directions of Secondary English education in 11 diverse countries - in Israel, Japan, Korea, Singapore, Bangladesh, India, Indonesia, Malaysia, Pakistan, Vietnam and China. Given the importance of secondary English education as the central feature for continuing development of target language and culture in English language teaching in Asia, each contributed chapter includes key policies, theories, and practices related to the development and implementation of country-specific curricular and instructional programs in secondary English educational contexts in these countries. *Secondary School English Education in Asia: From Policy to Practice* critically analyses both sides of the English language debate - from advantages to complications - in its chapters including: *Educating for the 21st Century: The Singapore Experience Miles to Go ...: Secondary Level English Language Education in India English Language Education Innovation for the Vietnamese Secondary School: The Project 2020 Exploring the Value of ELT as a Secondary School Subject in China: A Multi-model Model for English Curriculum Secondary School English Education in Asia* will appeal to English Language Teaching (ELT) researchers, teacher educators, trainee teachers and teachers, primarily those teaching in Asia.

The Routledge Handbook of Gender Politics in Sport and Physical Activity Jun 26 2019 This progressive and broad-ranging handbook offers a comprehensive overview of the complex intersections between politics, gender, sport and physical activity, shining new light on the significance of gender, sport and physical activity in wider society. Featuring contributions from leading and emerging researchers from around the world, the book makes the case that gender studies and critical thinking around gender are of particular importance in an era of increasingly intolerant populist politics. It examines important long-term as well as emerging themes, such as recent generational shifts in attitudes to gender identity in sport and the socio-cultural expectations on men and women that have traditionally influenced and often disrupted their engagement with sport and physical activity, and explores a wide range of current issues in contemporary sport, from debates around the contested gender binary and sex verification, to the role of the media and social media, and the significance of gender in sport leadership, policy and decision-making. This book is an authoritative survey of the current state of play in research connecting gender, sport, physical activity and politics, and is an important contribution to both sport studies and gender studies. It is fascinating reading for any student, researcher, policy-maker or professional with an interest in sport, physical activity, social studies, public health or political science.

Living and Working in Space Oct 30 2019 The official record of America's first space station, this book from the NASA History Series chronicles the Skylab program from its planning during the 1960s through its 1973 launch and 1979 conclusion. 1983 edition.

Introduction to School Counseling Dec 25 2021 This book is a comprehensive introduction to the profession for school counselors in training, providing special focus on the topics most relevant to the school counselor's role, and offers specific strategies for practical application and implementation. In addition to the thorough coverage of the fourth edition of the ASCA National Model, readers will find thoughtful discussions of the effects of trends and legislation, including the Every Student Succeeds Act (ESSA), multitiered systems of support (MTSS), and school-wide positive behavioral interventions and supports (SWPBIS). The text also provides readers with understanding of how school counselors assume a counseling orientation within the specific context of an educational setting. Each chapter is application-oriented, with an equal emphasis both on research and on using data to design and improve school counselors' functioning in school systems. Complementing this book is the companion website, which includes PowerPoints, templates and handouts, annotated website links and video links for students, and a test bank and discussion questions for instructors. This book is essential reading for all school counselors in training as it provides a comprehensive look at the profession and explores topics that are most relevant to the role of school counselor.

Exploring the Latest Trends in Management Literature Jul 28 2019 Exploring the Latest Trends in Management Literature presents cutting edge literature reviews on the emerging concepts, theories, and research trends across management disciplines.

A Practical Guide to Global Point-of-Care Testing Dec 01 2019 Point-of-care testing (POCT) refers to pathology testing performed in a clinical setting at the time of patient consultation, generating a rapid test result that enables informed and timely clinical action to be taken on patient care. It offers patients greater convenience and access to health services and helps to improve clinical outcomes. POCT also provides innovative solutions for the detection and management of chronic, acute and infectious diseases, in settings including family practices, Indigenous medical services, community health facilities, rural and remote areas and in developing countries, where health-care services are often geographically isolated from the nearest pathology laboratory. *A Practical Guide to Global Point-of-Care Testing* shows health professionals how to set up and manage POCT services under a quality-assured, sustainable, clinically and culturally effective framework, as well as understand the wide global scope and clinical applications of POCT. The book is divided into three major themes: the management of POCT services, a global perspective on the clinical use of POCT, and POCT for specific clinical settings. Chapters within each theme are written by experts and explore wide-ranging topics such as selecting and evaluating devices, POCT for diabetes, coagulation disorders, HIV, malaria and Ebola, and the use of POCT for disaster management and in extreme environments. Figures are included throughout to illustrate the concepts, principles and practice of POCT. Written for a broad range of practicing health professionals from the fields of medical science, health science, nursing, medicine, paramedic science, Indigenous health, public health, pharmacy, aged care and sports medicine, *A Practical Guide to Global Point-of-Care Testing* will also benefit university students studying these health-related disciplines.

Democracy and Education in Namibia and Beyond Jun 30 2022 The Namibian constitution makes full provision for education as a fundamental human right and freedom. Three years into independence, as part of the government's educational policy, the 'Education for All Policy' was launched as a stepping stone to free quality education. However, inequities have become widely pronounced within the Namibian educational system. *Democracy and Education in Namibia and beyond* debates the education-democracy nexus in Namibia and the southern African context. It defines and explores the meaning of democracy and related concepts. It also looks at what democracy means in the context of human rights and access to education. The ten chapters in this collection interrogate the strengths and limitations of education as an instrument of social change and question whether or not the Namibian educational objectives and practices do develop and help to sustain a democratic culture in

Namibia. The authors in the collection have drawn material from their own teaching and research experience across the fields of education and social science in Namibia and beyond, and present their findings in a pedagogical framework suitable as a challenging text for tertiary students. At a time when education is in crisis, especially in South Africa where strident calls for free tertiary education and Africanisation of the curriculum are spreading like wildfire, this book gives scholarly insight into the history and social conditions that gave rise to our current predicament.

Impact Evaluation Study on Development of Selected Secondary Schools (Government and Non-government) Mar 16 2021

Murphy on Evidence Aug 28 2019 Fully updated, 'Murphy on Evidence' bridges the gap between the academic and practical treatment of the law of evidence. Written by an author with many years of experience in both practice and teaching, this book contains a comprehensive academic analysis of the law and a wealth of information on how the law is applied.

The Aid Lab Aug 09 2020 From an unpromising start as 'the basket-case' to present day plaudits for its human development achievements, Bangladesh plays an ideological role in the contemporary world order, offering proof that the neo-liberal development model works under the most testing conditions. How were such rapid gains possible in a context of chronically weak governance? The Aid Lab subjects this so-called 'Bangladesh paradox' to close scrutiny, evaluating public policies and their outcomes for poverty and development since Bangladesh's independence in 1971. Countering received wisdom that its gains owe to an early shift to market-oriented economic reform, it argues that a binding political settlement, a social contract to protect against the crises of subsistence and survival, united the elite, the masses, and their aid donors in the wake of the devastating famine of 1974. This laid resilient foundations for human development, fostering a focus on the poorest and most precarious, and in particular on the concerns of women. In chapters examining the environmental, political and socioeconomic crisis of the 1970s, the book shows how the lessons of the famine led to a robustly pro-poor growth and social policy agenda, empowering the Bangladeshi state and its non-governmental organizations to protect and enable its population to thrive in its engagements in the global economy. Now a middle-income country, Bangladesh's role as the world's laboratory for aided development has generated lessons well beyond its borders, and Bangladesh continues to carve a pioneering pathway through the risks of global economic integration and climate change.

Antarctic Meteorite Newsletter Dec 13 2020

Essentials of Youth Fitness May 06 2020 Essentials of Youth Fitness is an evidence informed, practical guide for fitness and strength and conditioning professionals working with younger clientele. Backed by the American College of Sports Medicine (ACSM) and coauthored by three leading authorities in pediatric exercise science, this cutting-edge book reflects current research. It is built around the modern understanding that youth are not simply smaller versions of adults but are instead a special population with their own specific needs. This is a must-have resource for professionals working with young clients. Readers will learn the scientific theories behind youth training as well as how to apply them to help design effective programs that maximize creativity, engagement, and fun. This seminal resource is broken into three parts to systematically bridge the gap between science and practice. Part I lays the groundwork for understanding fundamental concepts of pediatric exercise science, including physiology, growth and maturation, long-term athletic development, and pedagogical strategies. Part II is devoted to the assessment of youth fitness and development of fitness components, including motor skill, strength and power, speed and agility, and aerobic and anaerobic fitness, and it features a chapter on designing integrative training programs. This practical section will demonstrate the impact of factors specific to youth on fitness, and it will teach readers how to design programs to meet the needs of youth of varying abilities and different stages of development. Sample training sessions with accompanying exercise photos within each chapter offer clear visual guidelines for implementing exercises correctly. Part III delves into modern-day topics specific to the youth population, including participation in organized sports and injury concerns; overweight and obese youth; those diagnosed with clinical conditions such as diabetes, asthma, and physical and mental disabilities; and the role of nutrition in healthy lifestyle habits. Learning aids throughout the text enhance comprehension and enable practitioners to quickly locate important information. Chapter objectives and key terms reinforce learning, while Teaching Tip boxes contextualize important themes and Do You Know? boxes illustrate practical application of the content. Combining the science of pediatric exercise with the practice of designing youth fitness programs, Essentials of Youth Fitness provides professionals with the information necessary to create a safe, effective exercise experience that sparks an ongoing interest in active play, exercise, and sports participation. CE exam available! For certified professionals, a companion continuing education exam can be completed after reading this book. Essentials of Youth Fitness Online CE Exam may be purchased separately or as part of the Essentials of Youth Fitness With CE Exam package, which includes both the book and the exam.

A Critical Evaluation of Vitamin D Aug 21 2021

An Almanac of Contemporary and Continuum of Jurisprudential Restatements Sep 29 2019 A Compendium of Jurisprudential Annotations of Cases with Treaties, Statutes, Rules and Commentaries

Foundations of Library and Information Science Apr 04 2020 In its newest edition, Foundations of Library and Information Science remains the field's essential resource.

IT Auditing Using a System Perspective Jul 20 2021 As the power of computing continues to advance, companies have become increasingly dependent on technology to perform their operational requirements and to collect, process, and maintain vital data. This increasing reliance has caused information technology (IT) auditors to examine the adequacy of managerial control in information systems and related operations to assure necessary levels of effectiveness and efficiency in business processes. In order to perform a successful assessment of a business's IT operations, auditors need to keep pace with the continued advancements being made in this field. IT Auditing Using a System Perspective is an essential reference source that discusses advancing approaches within the IT auditing process, as well as the necessary tasks in sufficiently initiating, inscribing, and completing IT audit engagement. Applying the recommended practices contained in this book will help IT leaders improve IT audit practice areas to safeguard information assets more effectively with a concomitant reduction in engagement area risks. Featuring research on topics such as statistical testing, management response, and risk assessment, this book is ideally designed for managers, researchers, auditors, practitioners, analysts, IT professionals, security officers, educators, policymakers, and students seeking coverage on modern auditing approaches within information systems and technology.

Immigration and Education Feb 12 2021 The level of immigration to the United States has never been higher, with more than a million immigrants, legal and illegal, entering every year. This massive, new immigration, dominated by people from Latin America and Asia, is placing unique demands upon schools, colleges, vocational training centers, and adult education agencies. David Stewart illustrates that the root of these difficulties lies in the absence of coordination between the federal government's immigration policy and related education policies at the federal, state, and local levels.

Women's Football: Prediction, Prevention and Performance Sep 21 2021

Entrepreneurship, Business and Economics - Vol. 2 Aug 01 2022 This volume of Eurasian Studies in Business and Economics focuses on latest results from research in Banking and Finance, Accounting and Corporate Governance, Growth and Development, along with a focus on the Energy sector. The first part on Accounting and Corporate Governance features articles on environmental accounting, audit quality, financial information, and adoption of governance principles. The Banking and Finance part looks at risk-behavior in banks, credit ratings during subprime crisis, stakeholder management, and stock market crises. The book focuses then on the energy sector and analyzes macroeconomic impacts of electricity generation, risk dimensions in wind energy, the latest EU energy reforms, and discusses prediction models.

Degradation Assessment and Failure Prevention of Pipeline Systems May 30 2022 This book presents the results of the research project G5055 'Development of novel methods for the prevention of pipeline failures with security implications,' carried out in the framework of the NATO Science for Peace and Security program, and explores the lifecycle assessment of gas infrastructures. Throughout their service lives, pipelines transporting hydrocarbons are exposed to demanding working conditions and aggressive media. In long-term service, material aging increases the risk of damage and failure, which can be accompanied by significant economic losses and severe environmental consequences. This book presents a selection of complementary contributions written by experts operating in the wider fields of pipeline integrity; taken together, they offer a comprehensive portrait of the latest developments in this technological area.

There is no Supreme Constitution Oct 03 2022 None of the articles of faith of the South African Constitution is plausible. The Constitution is not supreme and entrenched. Subject to potent socio-political forces it changes continuously and often profoundly regardless of stringent amendment requirements. The trite threefold separation of powers is more metaphorical than real and therefore unable to secure effective checks and balances. Though institutionally separated with their own personnel and functions, the three powers are ordinarily integrated in a single dominant political leadership, committed to achieving the same ideological goals. The bill of individual rights cannot guarantee justice, because rights are subject to the ideologically-driven exercise of judicial interpretation, often with damaging consequences for those relying on the bill of rights. This situation does not only apply to South Africa, but to all Constitutions premised on the same articles of faith, in this book described as the doctrine of statist-individualist constitutionalism. An improved mode of constitutionalism is called for - one which is equipped with a sounder system of checks and balances and better endowed towards the achievement of justice through a balanced constitution.

Innovative Strategies for Accelerated Human Resources Development in South Asia Nov 04 2022 Assessment of student learning outcomes (ASLO) is one of the key

activities in teaching and learning. It serves as the source of information in determining the quality of education at the classroom and national levels. Results from any assessment have an influence on decision making, on policy development related to improving individual student achievement, and to ensure the equity and quality of an education system. ASLO provides teachers and school heads with information for making decisions regarding a students' progress. The information allows teachers and school heads to understand a students' performance better. This report reviews ASLO in three South Asian countries---Bangladesh, Nepal, and Sri Lanka---with a focus on public examinations, national assessment, school-based assessment, and classroom assessment practiced in these countries.

Principles of Clinical Medicine for Space Flight Mar 04 2020 In its first edition, Principles of Clinical Medicine for Space Flight established itself as the authoritative reference on the contemporary knowledge base of space medicine and standards of care for space flyers. It received excellent notices and is used in the curricula of civilian and military training programs and used as a source of questions for the Aerospace Medicine Certifying Examination under the American Board of Preventive Medicine. In the intervening few years, the continuous manning of the International Space Station has both strengthened existing knowledge and uncovered new and significant phenomena related to the human in space. The Second Edition incorporates this information. Gaps in the first edition will be addressed with the addition new and revised chapters. This edition is extensively peer reviewed and represents the most up to date knowledge.

Engaging in Educational Research Jan 02 2020 This book reflects the paradigm shift now manifesting in Bangladesh's education system by highlighting recent empirical research. It shares essential insights by presenting research conducted on diverse aspects of current day education in Bangladesh, including policy and governance, equity, access and participation, curriculum and pedagogy, assessment, and education programs and projects run by NGOs. Further, it offers a platform for these unique studies to be showcased and disseminated to scholars and researchers from developing and developed countries alike, and represents a unique reference resource for the education research community in Bangladesh, Asia and all over the world. With Foreword from Professor Serajul Islam Choudhury.

RDA Around the World Jun 18 2021 This book provides a snapshot of the implementation in various countries around the world of the international cataloging standard RDA: resource description and access. All stages of implementing a new standard are covered, from initial assessment and impact analysis through translation, staff training, and data migration, to implementation and user orientation. Contributions include the results of detailed research into awareness of the standard in professional groups, differences between catalog metadata produced using RDA and current local standards, and the effect of RDA on the presentation of catalog displays to the end user. The contributions cover aspects of RDA implementation in Canada, China, German-speaking countries, Iran, Israel, Mexico, the Philippines, Singapore, and Turkey, and French, German and Spanish translation activity. The information contained will be relevant for many years to come, for those who are intending to implement RDA, review the quality of legacy data, measure the impact of the globalization of cataloguing data, or prepare for education and orientation in international bibliographic standards. This book was published as a special double issue of Cataloging and Classification Quarterly.

Strategic Investments in Instrumentation and Facilities for Extraterrestrial Sample Curation and Analysis Nov 23 2021 The United States possesses a treasure-trove of extraterrestrial samples that were returned to Earth via space missions over the past four decades. Analyses of these previously returned samples have led to major breakthroughs in the understanding of the age, composition, and origin of the solar system. Having the instrumentation, facilities and qualified personnel to undertake analyses of returned samples, especially from missions that take up to a decade or longer from launch to return, is thus of paramount importance if the National Aeronautics and Space Administration (NASA) is to capitalize fully on the investment made in these missions, and to achieve the full scientific impact afforded by these extraordinary samples. Planetary science may be entering a new golden era of extraterrestrial sample return; now is the time to assess how prepared the scientific community is to take advantage of these opportunities. Strategic Investments in Instrumentation and Facilities for Extraterrestrial Sample Curation and Analysis assesses the current capabilities within the planetary science community for sample return analyses and curation, and what capabilities are currently missing that will be needed for future sample return missions. This report evaluates whether current laboratory support infrastructure and NASA's investment strategy is adequate to meet these analytical challenges and advises how the community can keep abreast of evolving and new techniques in order to stay at the forefront of extraterrestrial sample analysis.

The Culture of Judicial Independence Apr 28 2022 This volume offers an in depth analysis of current issues of culture of judicial independence in comparative perspective by senior academics, judges and practitioners across jurisdictions. It deals with central topics that stand high in the academic and public discourse on the role of judges in society and in the system of government, their constitutional position, and the relations between top domestic courts and international and supra-national courts.

Historical Reforms in Education Jun 06 2020

Russian Law Journal Jan 14 2021 The "Russian Law Journal" (RLJ) magazine is one of the first English-language legal academic editions regularly published in Russia. It is an All-Russian interuniversity platform designed to promote Russian legal researches abroad. The magazine is meant for both Russian and foreign readers including major world legal libraries, academics and practicing lawyers. International editorial board and editorial team are represented by professors from leading world centers of legal education and legal science, like Harvard, Yale, Cambridge and La Sorbonne, as well as by scientists from Russian law schools (Moscow State University, Kutafin Moscow State Law University, Saint-Petersburg State University, Higher School of Economics).

Constitutional Adjudication in Africa Mar 28 2022 Since the 1990 wave of constitutional reforms in Africa, the role of constitutional courts or courts exercising the power to interpret and apply constitutions have become a critical aspect to the on-going process of constitutional construction, reconstruction, and maintenance. These developments appear, at least from the texts of the revised or new constitutions, to have resulted in fundamental changes in the nature and role of courts exercising jurisdiction in constitutional matters. The chapters in this second volume of the Stellenbosch Handbooks in African Constitutional Law series are the first to undertake a critical and comparative examination of the interplay of the diverse forms of constitutional review models on the continent. Comparative analysis is particularly important given the fact that over the last two decades, constitutional courts in Africa have been asked to decide a litany of hotly-contested and often sensitive disputes of a social, political, and economic nature. As the list of areas in which these courts have intervened has grown, so too have their powers, actual or potential. By identifying and examining the different models of constitutional review adopted, these chapters consider the extent to which these courts are contributing to enhancing constitutionalism and respect for the rule of law on the continent. The chapters show how the long-standing negative image of African courts is slowly changing. The courts have in responded in different ways to the variety of constraints, incentives, and opportunities that have been provided by the constitutional reforms of the last two decades to act as the bulwark against authoritarianism, and this provides a rich field for analysis, filling an important gap in the literature of contemporary comparative constitutional adjudication.

Business 4.0 as a Subject of the Digital Economy Nov 11 2020 This book substantiates the transformation processes in the system of modern entrepreneurship in the conditions of formation of Industry 4.0. The authors develop a scientific concept of business 4.0, determine the specific features of business 4.0 and current problems and perspectives of its development in developed and developing markets, study the infrastructural provision of business 4.0 in view of its sectorial specifics, outline the perspectives and recommendations in the sphere of development of business 4.0, and offer the scientific and practical recommendations for state and corporate management.
