[A War Without Chocolate](#) Sep 19 2021 The headlines tell us of inhumanity and horror in some desperate parts of our world. Behind these headlines are millions of people trying to just live their life and provide for their families. This is one woman's story of living her life through three wars while raising four children. It is a story where inspiring acts of humanity bloom from a desert of savage inhumanity. The wars and changing boundaries had profound effects on their lives, setting back careers and dividing families. Mrs' Majaj not only survived, but managed to carve out a noble and dignified life for herself and her family. While a river of desperate people sought refuge away from the only homes they had ever known, she stood firm. She supported her husband, Dr. Amin Majaj, with his career as a doctor, politician and medical researcher, raised her family, and was the Director of the Princess Basma Center for Disabled Children. This is a behind the scenes look at Jerusalem through the recent wars told by one who lived through them. It is a life well lived and a story worth telling.

The Emergence Of A Binational Israel Jan 30 2020 This book deals with the State of Israel as a binational political entity, focusing on patterns of political behavior in Israel today in an atmosphere

of continuing crisis, growing fragmentation and polarization, and important changes in the country's domestic and international environment.

Palestine-Israel A Just Plan for Permanent Peace Apr 14 2021 Introduction The basic obligations of a state towards its nation(s) are to provide Justice, control of powers - of organizations or individuals - peace, advancement of understanding - including science - and economy. Freedom, although essential, is secondary and a consequence of justice and control of powers. Since its creation in 1948, Israel under Zionism - Jewish Nationalism by reliance on international power(s) - has become a state of "abuse of powers, inherited from world powers", a "place of anti-humanity acts, against the humane formal principles that it was founded on", and a prophet of "transfer - forced migration - of the nations who helped its people to be transferred" in the region. In short, an inconsistency in the consistent humanity that arose from that region. There is a new enlightenment in the world, however, due to post era realities of the events: "end of the cold war", "fall of the Soviet Union", "Christian revolution in Poland", "Islamic revolution in Iran", "uprisings in Islamic world such as Intifada - uprising of Palestinians - and rise of Al-Qaeda", "defeat of Israel by Hesbollah in Lebanon" and "re-evaluation of South-American and African countries of their political and economical situations", on one hand, and "catastrophes of war in Iraq and the military assault on Gaza Strip" on the other hand. Based on this enlightenment, the people of the world adhere to: (i) Demand for maintaining the holy land - land of prophets - as a sacred region for all three great religions of Judaism, Christianity and Islam that have deep historical roots in the region, by reliance on their practical objectives - which are peace and justice for mankind - and not on their subjective theological Ideas - due to interpretations which may be wrong, or unacceptable to the majority of the faithful - for unification of humanity, to promote peace and humanity justice around the world dominated by these three religions, on one hand, and to prevent disastrous events such as crusade wars or dominance by world powers such as Roman Empire, on the other hand; (ii) Remove the "threat to the world peace" and the "strategy of human transfer" in the Middle East, created by the dominant secular Zionist Ideology that exploits Judaism and Christianity under the unfounded theology of Dispensationalism of John Nelson Darby - devised before 1917 in Great Britain and presumed to be a basis for the Balfour declaration in 1917; (iii) Speak in a unified religious basis that the problem of Palestinian and Israelis can not be solved by ignoring the atrocities of Israeli government towards people of Palestine - by killing them purposefully as a result of strategy of transfer, looking at them inhumanely, and using the historic anti-humanity tactics of the king Herod (around 18 BCE) who killed and enslaved even Jews for the abuse of Roman Empire, against them - and instead obligate it to choose the humane tactics of Moses; And on the spectrum of power, require the United States - as a Christian Country - to choose between Roman Empire Ideas and the Jesus' Ideas of humanity in its foreign policies. The rights of Palestinians in all aspects should be realized as justice suggests, and not as the power imposes. It is time for the people of the world to re-negotiate the establishment of Israel, on the basis of the principles promised to the nations of the world in 1947 and 1948. In this re- negotiation, the major goal must be the creation of a political system in the present state of Israel that guarantees independence of nations, equal rights of all nations, peace and humanity justice between the nations, and ends the suffering of people of Palestine by abusive power of Zionists. This book - based on the beliefs of it's author in a humane and just way to resolve the conflict in the Middle East - suggests a bi-national Federal system for a state consisting of nations of Palestinians - Moslem or Christians - and Jews, under provision

A Tale of Two Nations: Canada, U.S. and Wwi Dec 11 2020 In our 24/7 news cycle, it is difficult to imagine a time when news reports were often days old, when stories weren't necessarily confirmed and when colorful language permeated articles. During World War 1, that's exactly how newspapers in Canada and the United States reported events locally and aboard. A Tale of Two Nations focuses on the start of the war and key events from 1915-1918. It examines events not through the lens of hindsight and analysis but as they occurred. In A Tale of Two Nations, you'll read about: -1914: War begins in Europe-1915: The Second Battle of Ypres and sinking of the

Lusitania-1916: The Battle of the Somme and the U.S. presidential election-1917: The Battle of Vimy Ridge and the United States enters the war-1918: The war ends and the Spanish Flu Pandemic

The United States and Israel Oct 09 2020 Seminar paper from the year 2009 in the subject Politics - International Politics - Region: USA, grade: 3,0, University of Bonn (Institut für Politische Wissenschaft und Soziologie), course: American Foreign Policy in the Post-Cold War World, language: English, abstract: Following World War Two the world stood at a new beginning. The United States had finally taken its spot as Superpower acting globally and the Jewish people, after the horrors they had experienced under Nazi persecution were finally given the opportunity to return to what they considered their "promised land" to live in their own state. In 1948 the state of Israel was officially founded and with it the entire Middle-East would change. While Imperialism and Colonialism had been dominating the centuries before a new world was about to begin, at the very least for the people in the Middle-East. Since then U.S. foreign policy in the Middle-East has been dominated by the United States' foreign policy towards Israel. The relations between these two nations has often been described as a special friendship, a friendship in which the two nations stick together regardless of right or wrong. This text undertakes the difficult task of examining the origins of this truly special friendship and the implications of this on U.S. foreign policy. One of the central questions to examine is without a doubt whether the United States' support for the state of Israel is based upon a small but powerful Jewish lobby within the United States or whether it is much more so because of fundamental ideals and values shared by both nations and its people. The text points out many fundamental ideologies and ideas about the world and the two nation's role in this world in an attempt to get to the root of this truly unique friendship between the United States and Israel.

Mapping the Nation Apr 02 2020 In nearly two decades since Samuel P. Huntington proposed his influential and troubling 'clash of civilizations' thesis, nationalism has only continued to puzzle and frustrate commentators, policy analysts, and political theorists. No consensus exists concerning its identity, genesis, or future. Are we reverting to the petty nationalisms of the nineteenth century or evolving into a globalized, supranational world? Has the nation-state outlived its usefulness and exhausted its progressive and emancipatory role? Opening with powerful statements by Lord Acton and Otto Bauer—the classic liberal and socialist positions—Mapping the Nation presents a wealth of thought on this issue: the debate between Ernest Gellner and Miroslav Hroch; Gopal Balakrishnan's critique of Benedict Anderson's seminal Imagined Communities; Partha Chatterjee on the limitations of the Enlightenment approach to nationhood; and contributions from Michael Mann, Eric Hobsbawm, Tom Nairn, and Jürgen Habermas.

Between Two Nations Aug 31 2022 Immigrants come to the United States from all over Latin America in search of better lives, yet often don't seek citizenship or participate in the political process. BETWEEN TWO NATIONS examines that lack of political participation by studying the political practices of first-generation immigrants in New York City's multiethnic borough of Queens.

Credibility Nation Dec 31 2019 For many years, a silent and important war has been fought between two nations. On the one side, there's Credibility Nation which is composed of humans who go about life and their business with credibility and servant leadership. On the other side, there's Dubious Nation which is composed of humans who live and conduct their business with self-interest as their highest priority. Dubious Nation is on a winning streak and is vanquishing Credibility Nation a thousand times over. It's shocking to see how many people are forgetting how important it is to live and transact business in a credible way. I believe that there's still hope. There's still a way for Credibility Nation to win. It definitely won't be easy, and it won't happen in a day, but we can do it. The path toward credibility starts with seeing and acknowledging that the world has changed. We

used to live in a village economy where people did business with a handshake. That was a time when people exchanged goods and services for other goods and services without using money. In that kind of economy, when a proprietor's product didn't live up to expectations, the villagers would either self-correct or ostracize. After the village economy, we transitioned to and are now in the industrial age. Didn't we leave the industrial age and move into the Internet age. Sort of. What we've done is to primarily use technology to extend the processes, rules, and approaches to business and life that were developed in the industrial age. The industrial age is a time where power and status are everything. The higher you rise on the corporate ladder, no matter what means you took to get there, the more successful and happier you become. The industrial age is dominated by self-satisfaction and self-interest. Today, we're slowly transitioning to the global village. It is similar to the village economy with the big difference being our reach. We can now reach and need to be aware of millions of people from around the world. The keys to success and happiness in the global village are credibility and relationships. Since technology has enabled us to connect with more people, how we live and do business can easily be seen. Thus, presenting ourselves as credibly as we can allows others to want to get to know, like, and trust us. I wrote this book with the intention of enlightening humanity about what credibility truly is, how important it is as we move forward to the future, and how we can transform ourselves into credible humans. My hope is that this book will serve as a wake-up call, a reminder, and a blueprint for those who want to join me in this movement toward credibility. Now, take a look at yourself. Are you more in alignment with Credibility Nation than Dubious Nation? Or maybe, it's the other way around. If you feel you're more dubious than credible, that's okay. Don't worry. There's always room for change and transformation. There will always be people who will lend you a helping hand and guide you toward credibility. The doors of Credibility Nation will always be open to those who are willing and ready to transform themselves into better human beings. It's up to you to take that first step. Will you take it? We need you to be the human you know in your heart you want to be. Please join me in this epic battle against Dubious Nation. The goal in my lifetime is to tip the scale.

Two Nations Under God Feb 22 2022 Why should you care about Israel? With the war in Iraq, possible engagement in Iran, and an imminent presidential election, U.S. foreign policy in the Middle East and the issue of solidarity with Israel remain important. In *Two Nations Under God*, American missionary Tom Doyle presents even greater reasons why the U.S. should show concern for Israel. Part one, "Why Should America Care?" is a biblical and historical primer on Israel with fascinating insights into connections between American and Middle East culture. Part two, "Sorting Out the Middle East Maze," presents more facts about Islam and the spiritual roots behind the Middle East conflicts. Part three, "Maximizing the Moment," is a call to action and prayer for the American church regarding the future of Israel. Best of all, readers will learn throughout that, despite the headlines, there is plenty of good news coming from the Middle East. Doyle reports on the increasing number of Muslims converting to Christianity, profiles local disciples and church planters, and provides helpful timelines, comparison charts, photographs, and more to keep every detail concerning Israel in perspective. Endorsements: "Chaos. Carnage. Confusion. For many, that's the modern Middle East. But Tom Doyle gets it. Better yet, he can really explain it. With a pastor's heart, he clearly and concisely describes why God loves the Jews of Israel and her Muslim neighbors, and why we should, too. What's more, Tom reveals how powerfully God is moving in the modern Middle East, and how we can join Him. *Two Nations under God* is a must read—fascinating, insightful, and deeply thought-provoking. Get one for yourself, and another for your pastor." Joel C. Rosenberg, New York Times best-selling author of *Epicenter: Why the Current Rumbblings in the Middle East Will Change Your Future*

[The Kite that Bridged Two Nations](#) Oct 21 2021 Homan Walsh loves to fly his kite. And when a contest is announced to see whose kite string can span Niagara Falls, Homan is set on winning, despite the cold and the wind—and even when his kite is lost and broken. Homan's determination is beautifully captured in this soaring, poetic picture book that features Terry Widener's stunning

acrylic paintings. Both author and illustrator worked with experts on both sides of the falls to accurately present Homan Walsh's story. The book also includes an extensive author's note, timeline, bibliography, and further resources.

The Koreas Apr 26 2022 What history, pop culture, and diaspora can teach us about North and South Korea today. Korea is one of the last divided countries in the world. Twins born of the Cold War, one is vilified as an isolated, impoverished, time-warped state with an abysmal human rights record and a reclusive leader who perennially threatens global security with his clandestine nuclear weapons program. The other is lauded as a thriving democratic and capitalist state with the thirteenth largest economy in the world and a model for developing countries to emulate. In *The Koreas*, Theodore Jun Yoo provides a compelling gateway to understanding the divergent developments of contemporary North and South Korea. In contrast to standard histories, Yoo examines the unique qualities of the Korean diaspora experience, challenging the master narratives of national culture, homogeneity, belongingness, and identity. This book draws from the latest research to present a decidedly demythologized history, with chapters focusing on feature stories that capture the key issues of the day as they affect popular culture and everyday life. *The Koreas* will be indispensable to any historian, armchair or otherwise, in need of a discerning and reliable guide to the region.

Sybil, Or, The Two Nations Jul 18 2021 The social and financial problems of class-ridden Victorian England are depicted vividly, and against this background the romance of Egremont, an aristocrat, and Sybil, the daughter of a poor Chartist leader, develops.

Sybil May 16 2021 *Sybil* Benjamin Disraeli - *Sybil, or The Two Nations* is one of the finest novels to depict the social problems of class-ridden Victorian England. The book's publication in 1845 created a sensation, for its immediacy and readability brought the plight of the working classes sharply to the attention of the reading public. The 'two nations' of the alternative title are the rich and poor, so disparate in their opportunities and living conditions, and so hostile to each other that they seem almost to belong to different countries. The gulf between them is given a poignant focus by the central romantic plot concerning the love of Charles Egremont, a member of the landlord class, for Sybil, the poor daughter of a militant Chartist leader.

Operation Overflight Dec 23 2021 In this new edition of his classic 1970 memoir about the notorious U-2 incident, pilot Francis Gary Powers reveals the full story of what actually happened in the most sensational espionage case in Cold War history. After surviving the shoot-down of his reconnaissance plane and his capture on May 1, 1960, Powers endured sixty-one days of rigorous interrogation by the KGB, a public trial, a conviction for espionage, and the start of a ten-year sentence. After nearly two years, the U.S. government obtained his release from prison in a dramatic exchange for convicted Soviet spy Rudolph Abel. The narrative is a tremendously exciting suspense story about a man who was labeled a traitor by many of his countrymen but who emerged a Cold War hero.

Two Nations in Your Womb May 28 2022 Offers a provocative look at the relationship between Judaism and Christianity, arguing that the inter-religious polemic between the two religions served as a substantial component in the formation of each and that the impact of Christianity on Talmudic and medieval Judaism was much stronger than previously assumed.

Between Two Nations Nov 21 2021 Immigrants come to the United States from all over Latin America in search of better lives. They obtain residency status, find jobs, pay taxes, and they have children who are American citizens by birth; yet decades may go by before they seek citizenship for themselves or become active participants in the American political process. *Between Two Nations* examines the lack of political participation among Latin American immigrants in the United States to determine why so many remain outside the electoral process. Michael Jones-Correa studied the political practices of first-generation immigrants in New York City's multiethnic borough of Queens. Through intensive interviews and participant observation, he found that immigrant participation was

stymied both by lack of encouragement to participate and by the requirement to renounce former citizenship, which raised the fear of never being able to return to the country of origin. The hesitation to naturalize as American citizens can extend over decades, leaving immigrants adrift in a political limbo. *Between Two Nations* is the first qualitative study of how new immigrants assimilate into American political life. Jones-Correa reexamines assumptions about Latino politics and the diversity of Latino populations in the United States, about the role of informal politics in immigrant communities, and about gender differences in approaches to political activity.

RSS, School Texts and the Murder of Mahatma Gandhi Aug 26 2019 RSS, School Texts and the Murder of Mahatma Gandhi undertakes the novel experiment of juxtaposing three apparently quite different issues, the nature of the RSS school textbooks, the murder of the Mahatma and the basic ideology of Savarkar and Golwalkar. While deeply delving into all three aspects, it brings out the deep connection between them. The book, which brings out the basic ideological underpinnings of the Hindu Communal Project, is divided into three parts. Part I discusses how this ideology is propagated among young impressionable minds through school textbooks. Part II studies the role of the Sangh combine in the murder of Mahatma Gandhi and Part III analyses the basic elements of the Hindu communal ideology, as propounded by some of its founders like Savarkar and Golwalkar. The book brings home to us in a dramatic manner the great threat communalism poses to our society, thus making it a must-read for the general educated reader, including politicians, political workers, social activists and journalists.

Sybil, or the Two Nations Feb 10 2021 “His portrait of life in a grim, northern manufacturing town is vivid and memorable . . . Without Disraeli, Charles Dickens might not have written *Hard Times*.” —The Guardian Charles Egremont, the younger brother of an English earl, was brought up in the enjoyment of every comfort and luxury that refinement could devise and wealth furnish. And even though enjoyment, not ambition, seems the principle of his existence, he is blessed with a generous spirit and tender heart. But his quaint, rural village hides a terrible truth: a miserable population of workers, victims of penury and disease. Yearning to learn more about their plight, Egremont poses as a reporter. He comes in contact with the beautiful and serene Sybil Gerard, the daughter of a factory worker. And as his brother tries to set up an arranged marriage for him, Egremont finds that his heart belongs to Sybil. Her caring spirit opens up horizons for him, allowing him to clearly see the harm and misery caused by a divided England. A scathing portrait of the dichotomy of industrialized English society, *Sybil, or the Two Nations* “is both an upper-class romance and a political manifesto set against the backdrop of the Chartist movement” (The Victorian Web).

[The Lost Key](#) Jul 26 2019 Dr Soufiani, founder and director of a civil engineering firm in London, is a London University PhD qualified and practising civil and environment engineer. He was researcher at University of London, research assistant at University of East London, and lecturer at Iran University of Science & Technology. Soufianis passion about Persian literature has steered him to over ten years of extensive research with a great Persian philosopher, Manuchehr Jamali. Jamali has managed to open up many incredible doors to him in comprehending Persian literature to its true meaning of values, love, unity, and dignity. Soufianis understanding of Eastern and Western cultures has given him a great leverage in his exploration of Persian literature in comparison with Western civilization and the lack of democracy in the Middle East. With this book, he highlights Persian literature as an invaluable asset and the lost key in opening the lock of the declining morality in our modern world and the absence of democracy in the Middle East. The world must sincerely assist in exploration of

this nations literature for the sake of morality. The Middle East must explore and use her own invaluable potential rich literature to rise and fly from her own ashes to establish the ethical society that will give them the tools for building and establishing the foundation of a democratic system. Many Persian poems have been translated throughout this book to highlight the core values of beautiful Persian romantic and humanistic culture.

Mapping the Nation Mar 02 2020 Few political phenomena have proved as confusing or as difficult to comprehend as nationalism. There is no established consensus on its identity, genesis or future. Are we, for example, in the process of being thrust back into a nineteenth-century world of competitive and aggressive great powers and petty nationalisms? Or, rather, are we being flung headlong into a new, globalized and supra-national millennium? Has the nation-state outlived its usefulness and exhausted its progressive and emancipatory role, or has nationalism always been implicated in an exclusivist ethnic and militaristic logic? Mapping the Nation seeks to address these and other questions about the nature and destiny of the "national question" in the present epoch. A comprehensive and definitive reader on the subject, with contributions from some of the most significant and stimulating theorists of the nation-state, it presents a wide range of divergent ideas and controversies. Leading off with powerful statements of the classic liberal and socialist positions, by Lord Acton and Otto Bauer, there then follows an historical-sociological debate between the late Ernest Gellner and the Czech historian Miroslav Hroch, the one stressing the connections between nationalism and the transition away from agrarian society, the other emphasizing its variability and real anthropological basis. John Breuilly and Anthony D. Smith, two of the leading British specialists, provide a counterpoint to each other with considerations on the respective importance of political leadership and continuing ethnic communities in the construction of nationalist movements. Gopal Balakrishnan, in a carefully honed critique of Benedict Anderson's seminal Imagined Communities, and Partha Chatterjee, from the Subaltern Studies circle, offer crucial insights on the limitations of the Enlightenment approach to nationhood, as do Sylvia Walby and Katherine Verdery with their reflections on the entanglements of nation, gender and identity politics. Sociologist Michael Mann delivers an authoritative refutation of the chatter about the "death of the nation-state." Finally, relating the theoretical questions directly to the politics of our time, renowned historian Eric Hobsbawm, provocative theorist Tom Nairn, and the outstanding political philosopher Jürgen Habermas discuss, with varying degrees of optimism and pessimism, the future of the national project.

America Is John the Baptist of Nations May 04 2020 Like Jonah this is a story of self-doubt, self-insecurity, fear (not from lack of God's abilities but fear of personal assaults and self-image.) It's a story of a lifetime of seeing life from a bigger perspective and not concerned with individual concerns, like from a national perspective rather than from person to person. It is a story of wanting to share the peace and love experienced but always having the reality that our time as a nation has little time left to be an example for the world. It's a story of picking up bits of information that show why and how America was created by Jesus and why we were created to be a pre-runner for the Kingdom which Christ will establish. As a pre-runner we are the final nation created by the Gentiles to see if we can do what the Israelites were not able to do. It's a story of the two nations with very similar histories and now apparently with very similar endings. You will read how Scripture attempted to save Israel and how it is warning us.

Jericho's Road Jul 06 2020 When Texas Ranger private Andy Pickard is assigned to help patrol the Texas-Mexico border country he rides directly into a deadly feud. At odds are two land and cattle barons - Jericho Jackson, whose great spread lies just north of the Rio Grande, and Guadalupe Chavez, whose domain lies south of the river. The men are alike in only one respect: their hatred for each other, a hate born at the time of the Alamo and the U.S.-Mexican War, when Mexican lands were confiscated by ruthless Americans. The old rivals have turned to preying on each others' cattle with resulting bloodshed on both sides of the river. Between the two camps, Big Jim McCawley's ranch seems almost symbolic of the opportunity for the people of the two nations to live together. McCawley is married to Guadalupe Chavez's sister, Juana -a fact that does not ingratiate him to either the Chavez or Jackson faction. To Andy Pickard, who as a child was taken captive by Comanches, old prejudices are familiar territory, but the Jackson-Chavez war is flaring out of control by the time he reaches the Ranger camp on the border in the company of fellow Ranger Farley Brackett. The two Rangers find themselves caught up in the feud, risking arrest for crossing the river into Mexico, and risking death for not heeding the warning sign at the edge of Jericho Jackson's domain: This is Jericho's Road. Take the Other. Inevitably, the cauldron boils over and the forces of Jericho Jackson and "Lupe" Chavez meet in bloody combat. In the midst of this battle on Mexican soil are Andy Pickard -- longing to court and marry Bethel Brackett and live a peaceful life as an ex-Ranger -- and Brackett himself, falling in love with Teresa, Big Jim McCawley's half-Mexican daughter. Jericho's Road, sixth book in Kelton's acclaimed Texas Ranger series, typifies "The right blend of action, drama, romance, humor and suspense" that Publishers Weekly said has made Kelton "a master of both plot and character development." At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.
