[Live No Lies](#) May 04 2020 NEW YORK TIMES BESTSELLER • The bestselling author of *The Ruthless Elimination of Hurry* equips readers to recognize and resist the lies that seek to rob them of peace and freedom. "Live No Lies is brilliant, deep, scriptural, and will equip you to face the enemy and fight."—Jennie Allen, New York Times bestselling author of *Get Out of Your Head* We are at war. Not with a foreign government or domestic terrorists or a creepy new artificial intelligence hell-bent on taking over the world. No, it's a war we feel deep inside our own chests: we are at war with lies. The problem isn't so much that we tell lies but that we live them. We let them into our bodies, and they sabotage our peace. All around us in the culture and deep within our own body memories are lies: deceptive ideas that wreak havoc on our emotional health and spiritual well-being, and deceptive ideas about who God is, who we are, and what the good life truly is. The choice is not whether to fight or not fight, but whether we win or surrender. Ancient apprentices of Jesus developed a paradigm for this war; they spoke of the three enemies of the soul: the devil, the flesh, and the world. *Live No Lies* taps into this ancient wisdom from saints of the Way and translates the three enemies for the modern era, with all its secularism and sophistication. As a generation, we chuckle at the devil as a premodern myth, we are confused by Scripture's teaching on the flesh in an age where sensual indulgence is a virtue not a vice, and we have little to no category for the New Testament concept of the world. In this provocative and practical book, bestselling author John Mark Comer combines cultural analysis with spiritual formation. He identifies the role lies play in our spiritual deformation and lays out a strategic plan to overcome them. Do you feel the tug-of-war in your own heart, the inner conflict between truth and lies? The spirit and the flesh? The Way of Jesus and the world? It's time to start winning. It's time to live no lies...

The Resonance of Unseen Things Aug 19 2021 *The Resonance of Unseen Things* offers an ethnographic meditation on the "uncanny" persistence and cultural freight of conspiracy theory. The project is a reading of conspiracy theory as an index of a certain strain of late 20th-century American despondency and malaise, especially as understood by people experiencing downward social mobility. Written by a cultural anthropologist with a literary background, this deeply interdisciplinary book focuses on the enduring American preoccupation with captivity in a rapidly transforming world. Captivity is a trope that appears in both ordinary and fantastic iterations here, and Susan Lepselter shows how multiple troubled histories—of race, class, gender, and power—become compressed into stories of uncanny memory. "We really don't have anything like this in terms of a focused, sympathetic, open-minded

ethnographic study of UFO experiencers. . . . The author's semiotic approach to the paranormal is immensely productive, positive, and, above all, resonant with what actually happens in history." —Jeffrey J. Kripal, J. Newton Rayzor Professor of Religion, Rice University "Lepselter relates a weave of intimate alien sensibilities in out-of-the-way places which are surprisingly, profoundly, close to home. Readers can expect to share her experience of contact with complex logics of feeling, and to do so in a contemporary America they may have thought they understood." —Debbora Battaglia, Mount Holyoke College "An original and beautifully written study of contemporary American cultural poetics. . . . The book convincingly brings into relief the anxieties of those at the margins of American economic and civic life, their perceptions of state power, and the narrative continuities that bond them to histories of violence and expansion in the American West." —Deirdre de la Cruz, University of Michigan

Guests of the Ayatollah Mar 14 2021 The New York Times—bestselling author of *Black Hawk Down* delivers a "suspenseful and inspiring" account of the Iranian hostage crisis of 1979 (*The Wall Street Journal*). On November 4, 1979, a group of radical Islamist students, inspired by the revolutionary Iranian leader Ayatollah Khomeini, stormed the U.S. embassy in Tehran. They took fifty-two Americans captive, and kept nearly all of them hostage for 444 days. In *Guests of the Ayatollah*, Mark Bowden tells this sweeping story through the eyes of the hostages, the soldiers in a new special forces unit sent to free them, their radical, naïve captors, and the diplomats working to end the crisis. Bowden takes us inside the hostages' cells and inside the Oval Office for meetings with President Carter and his exhausted team. We travel to international capitals where shadowy figures held clandestine negotiations, and to the deserts of Iran, where a courageous, desperate attempt to rescue the hostages exploded into tragic failure. Bowden dedicated five years to this research, including numerous trips to Iran and countless interviews with those involved on both sides. *Guests of the Ayatollah* is a detailed, brilliantly recreated, and suspenseful account of a crisis that gripped and ultimately changed the world. "The passions of the moment still reverberate . . . you can feel them on every page." —*Time* "A complex story full of cruelty, heroism, foolishness and tragic misunderstandings." —*Pittsburgh Post-Gazette* "Essential reading . . . A." —*Entertainment Weekly*

Jewish Jocks Jul 26 2019 2012 National Jewish Book Award Winner *JEWISH JOCKS: AN UNORTHODOX HALL OF FAME* is a timeless collection of biographical musings, sociological riffs about assimilation, first-person reflections, and, above all, great writing on some of the most influential and unexpected pioneers in the world of sports. Featuring work by today's preeminent writers, these essays explore significant Jewish athletes, coaches, broadcasters, trainers, and even team owners (in the finite universe of *Jewish Jocks*, they count!). Contributors include some of today's most celebrated writers covering a vast assortment of topics, including David Remnick on the biggest mouth in sports, Howard Cosell; Jonathan Safran Foer on the prodigious and pugnacious Bobby Fischer; Man Booker Prize-winner Howard Jacobson writing elegantly on Marty Reisman, America's greatest ping-pong player and the sport's ultimate showman. Deborah Lipstadt examines the continuing legacy of the Munich Massacre, the fortieth anniversary of which coincided with the 2012 London Olympics. Jane Leavy reveals why Sandy Koufax agreed to attend her daughter's bat mitzvah. And we learn how Don Lerman single-handedly thrust competitive eating into the public eye with three pounds of butter and 120 jalapeño peppers. These essays are supplemented by a cover design and illustrations throughout by Mark Ulriksen. From settlement houses to stadiums and everywhere in between, *JEWISH JOCKS* features men and women who do not always fit the standard athletic mold. Rather, they utilized talents long prized by a people of the book (and a people of commerce) to game these games to their advantage, in turn forcing the rest of the world to either copy their methods-or be left in their dust.

Escape, Evasion and Revenge Jan 30 2020 This idiosyncratic book takes the reader on a fascinating journey, from high-end grooming and care, including open razors, strops and Belgian waterstone; silver-tipped badger shaving brushes, shaving soaps and D R Harris's Pick-me-up, loofahs and sponges, through colognes and scents, including history, constituents, triggers and individual colognes, then into dressing accessories, such as slippers, watches, cufflinks and shirt studs, and tie pins, even how to assess precious stones as well as a fascinating account, from primary sources, of the evolution of the dinner jacket-Tuxedo. Moreover, if you want to know not just how to mix drinks but something of their history, as well as the history of beer, cider and mead; sweets of all kinds, chocolate, tea and coffee; matching food and drink (and not just food and wine) and then every essential fact about tobacco, pipes, Havana cigars, cigarettes and snuff, it's all here, as well as where to buy the products that are mentioned. But it does not stop there. The journey continues on to a consideration of some of London's fascinating venues, including pubs, clubs, restaurants, hotels and bars; some nice points of conduct and the author's reflections on such things as feminine wiles (what women really look for) and even how to stop a fight. There is a chapter on selecting and buying gifts for the lady in your life, a dictionary of Anglo-American sartorial terms and it ends, as it begins, with thoughts of England as home. The author has submitted the book in draft to the scrutiny of leading world experts on the various topics and so, as well as being entertaining, it is backed by authority.

Pain and Gain-The Untold True Story Aug 31 2022 *The True Story Behind The Movie Pain & Gain* This book proves

that sometimes the truth is stranger than fiction! What if you were kidnapped, tied to a wall for a month, starved, humiliated, tortured and then they tried to murder you, but you survived? What stories would you tell of how you were able to survive and the struggles you went through? What if you went to the police and they did not believe you? What would you do to evade those trying to kill you and how would you bring the criminals to justice before they struck again? How would that change your life and the way you perceived the world and people? Read this amazing book to find out! The year was 1994, Marc and his family lived an ordinary middle class life in Miami, Florida. Little did he know that in November of that year his life and that of his family would change forever. The events that were to unfold could not be conceived by the wildest imagination. In this amazing book he narrates the events that led to his kidnapping and his attempted murder. It will transport and place you in the warehouse where he was held and give you a unique perspective of the events that transpired during that horrific month and the physical and mental struggle to beat the odds and survive. Marc chronicles his story in torturous detail. His humiliation, pain and suffering at the hands of the Sun Gang Gym and his miraculous survival. You will understand how and why he survived and that everything can be taken from a human being, but the one's spirit and determination to survive can never be. No one believed his story, not the police or anyone else. Nevertheless, he maintained steadfast and determined to bring the criminals to justice before they struck again. Truly a harrowing tale and one that not only you soon won't forget but will uplift and inspire you!! Scroll up and grab your copy today and start reading one of the most intriguing stories in the last 20 years!!

Colleen Plumb: Thirty Times a Minute Jun 24 2019 Captive elephants exhibit what biologists refer to as stereotypy, which includes rhythmic rocking, head bobbing, stepping back and forth, and pacing. Colleen Plumb traveled to over seventy zoos in the US and Europe to film this behavior, and distilled her footage into a video that weaves together dozens of captive elephants, bearing the weight of an unnatural existence in their small enclosures. She has installed guerrilla public projections of the video in over 100 locations worldwide, constructing photographs of each projection. *Thirty Times a Minute* (the resting heart rate of an elephant) explores the ways in which animals in captivity function as symbols of persistent colonial thinking, a striving for human domination over nature has been normalized, and consumption masks curiosity. The work sheds light on abnormal behaviors of captive elephants in order to bring attention to implicit values of society as a whole, particularly those that perpetuate power imbalance and tyranny of artifice. The presence of massive, intelligent, far-roaming, emotional animals such as elephants in urban zoos exemplifies contradiction and discordance, and public projections of their image onto urban walls and out-of-context surfaces add to the layers of incongruity.

A Guide to Keeping Australian Scorpions in Captivity: With Notes on General Biology and Identification

Apr 14 2021 The Evolution of this book: - A note from the author. This book started out with the intention of being a short simple guide to keeping Australian Scorpions as it was apparent nothing in print was available to help those specifically interested in the husbandry of Australian scorpions. One of the main reasons people wished to keep scorpions stemmed from an interest in their amazing biology, and so it seemed imperative the keeper would want to know more about aspects of life history, diversity, species and more and so this book developed into far more than was originally planned. And I'm glad it did. The reader will derive a lot more knowledge from this text than a basic keeping guide. To be the best keeper of scorpions and really enjoy the hobby it pays to know as much as possible of the biology. This book covers many angles while concentrating on Keeping as the overall basis. Understanding an animal's biology and ecology is the foundation to knowing how to keep it in captivity and so where possible I relate aspects of life history, physiology and ecology to help in establishing the best forms of housing including environmental physical parameters such as temperature, humidity and substrate types. A book of this type would be a little short of complete if it did not include a section on known species, their approximate distributions and general description, and so I have included information on all our presently recognised species with references also made to prior species now synonymised. Problems such as taxonomy and species descriptions are addressed along with more fun stuff such as what to take on a collecting trip, what things you might need to study scorpions if that's your interest - it's not all science of course. A Quick Reference section has keeping parameter tables for the best types of setup for scorpions from all habitats. A FAQ section summarises answers to the most common questions. This book is a MUST HAVE for anyone contemplating or already keeping Scorpions, from absolute beginners to seasoned veterans it will be the best investment you ever make. and it's the FIRST and ONLY ONE of its kind, so DON'T MISS IT!!! Back by Popular Demand. World Wide BEST Seller in the world of Scorpion Husbandry

A Spectrum of Unfreedom Jul 06 2020 Without the labor of the captives and slaves, the Ottoman empire could not have attained and maintained its strength in early modern times. With Anatolia as the geographic focus, Leslie Peirce searches for the voices of the unfree, drawing on archives, histories written at the time, and legal texts. Unfree persons comprised two general populations: slaves and captives. Mostly household workers, slaves lived in a variety of circumstances, from squalor to luxury. Their duties varied with the status of their owner. Slave status might not last

a lifetime, as Islamic law and Ottoman practice endorsed freeing one's slave. Captives were typically seized in raids, generally to disappear, their fates unknown. Victims rarely returned home, despite efforts of their families and neighbors to recover them. The reader learns what it was about the Ottoman environment of the sixteenth and seventeenth centuries that offered some captives the opportunity to improve the conditions of their bondage. The book describes imperial efforts to fight against the menace of captive-taking despite the widespread corruption among the state's own officials, who had their own interest in captive labor. From the fortunes of captives and slaves the book moves to their representation in legend, historical literature, and law, where, fortunately, both captors and their prey are present.

Zoocide Nov 21 2021 The issue of zoos is not about treatment, but use; not about reform, but abolition. Zoos often pay lip-service to "education," "enrichment," and "conservation," but the cruelty is systemic and follows from the idea of animals as commodities. As long as they are property, animals will continue to be treated as things, with no rights, who can be caged, bred, abused, or killed for a zoo's profit and the public's entertainment. In *Zoocide*, Sue Coe applies her bold and breathtaking artistic style to confront the institution of zoos, exposing them as a form of capitalist cruelty that is enmeshed with the violence of war, colonialism, and ecological destruction.

I Choose to Live Jan 24 2022 I lived through the Dutroux affair from the inside, and all these years I have kept silent about it - about my 'personal' Dutroux Affair, my time in the company of the most hated psychopath in Belgium. I need to write this book for three reasons: so that people stop giving me strange looks and treating me like a curiosity; so that no one ever asks me any more questions ever again; and so that the judicial system never again frees a paedophile for 'good behaviour'. 'The Dutroux Affair' shook the whole of Europe. In the middle of the immense machinery of investigation and justice there was Sabine Dardenne herself, Dutroux's last victim. She was held captive for eighty days - and survived. Far from sensationalising the horror, her story, dignified and restrained, is ultimately uplifting. Says Sabine Dardenne, 'I choose to live'.

Law of the Jungle Jan 28 2022 On February 13, 2003, a plane carrying three American military contractors crash-landed in the jungle-covered mountains of Colombia. Within minutes, FARC guerrillas swarmed the wreckage and killed the American pilot and a Colombian crew member, then marched the survivors—Marc Gonsalves, Keith Stansell, and Thomas Howes—at gunpoint into the rain forest. The Colombian government sent 147 soldiers to rescue the Americans. The troops spent weeks subsisting on monkey meat and Amazon rodents as they chased the guerrillas deeper into the jungle. But then a soldier on a bathroom break stuck his machete into the ground and pulled out 20 million pesos—part of a buried rebel cache of \$20 million—and the game suddenly changed. Veteran journalist John Otis places the Colombian hostage story in its full context, exploring the inner workings of the FARC, the U.S.-backed war on drugs, and Colombia's efforts to free the rebel-held prisoners. *Law of the Jungle* is an edge-of-your-seat adventure and a shocking cautionary tale about the pursuit of fortune in one of the world's most dangerous places.

Death at SeaWorld Nov 29 2019 From the New York Times bestselling author of *Evidence of Harm* and *Animal Factory*—a groundbreaking scientific thriller that exposes the dark side of SeaWorld, America's most beloved marine mammal park *Death at SeaWorld* centers on the battle with the multimillion-dollar marine park industry over the controversial and even lethal ramifications of keeping killer whales in captivity. Following the story of marine biologist and animal advocate at the Humane Society of the US, Naomi Rose, Kirby tells the gripping story of the two-decade fight against PR-savvy SeaWorld, which came to a head with the tragic death of trainer Dawn Brancheau in 2010. Kirby puts that horrific animal-on-human attack in context. Brancheau's death was the most publicized among several brutal attacks that have occurred at Sea World and other marine mammal theme parks. *Death at SeaWorld* introduces real people taking part in this debate, from former trainers turned animal rights activists to the men and women that champion SeaWorld and the captivity of whales. In section two the orcas act out. And as the story progresses and orca attacks on trainers become increasingly violent, the warnings of Naomi Rose and other scientists fall on deaf ears, only to be realized with the death of Dawn Brancheau. Finally he covers the media backlash, the eyewitnesses who come forward to challenge SeaWorld's glossy image, and the groundbreaking OSHA case that challenges the very idea of keeping killer whales in captivity and may spell the end of having trainers in the water with the ocean's top predators.

The Captured Oct 21 2021 On New Year's Day in 1870, ten-year-old Adolph Korn was kidnapped by an Apache raiding party. Traded to Comanches, he thrived in the rough, nomadic existence, quickly becoming one of the tribe's fiercest warriors. Forcibly returned to his parents after three years, Korn never adjusted to life in white society. He spent his last years in a cave, all but forgotten by his family. That is, until Scott Zesch stumbled over his own great-great-uncle's grave. Determined to understand how such a "good boy" could have become Indianized so completely, Zesch travels across the west, digging through archives, speaking with Comanche elders, and tracking eight other child captives from the region with hauntingly similar experiences. With a historians rigor and a novelists

eye, Zesch's *The Captured* paints a vivid portrait of life on the Texas frontier, offering a rare account of captivity. "A carefully written, well-researched contribution to Western history -- and to a promising new genre: the anthropology of the stolen." - Kirkus Reviews

The Killer Whale Who Changed the World Sep 19 2021 The fascinating and heartbreaking account of the first publicly exhibited captive killer whale — a story that forever changed the way we see orcas and sparked the movement to save them. Killer whales had always been seen as bloodthirsty sea monsters. That all changed when a young killer whale was captured off the west coast of North America and displayed to the public in 1964. Moby Doll — as the whale became known — was an instant celebrity, drawing 20,000 visitors on the one and only day he was exhibited. He died within a few months, but his famous gentleness sparked a worldwide crusade that transformed how people understood and appreciated orcas. Because of Moby Doll, we stopped fearing “killers” and grew to love and respect “orcas.”

Pain and Gain Sep 07 2020 In his first riveting book, *Pain and Gain: The Untold True Story*, Marc Schiller narrated the incredible events behind the movie *Pain & Gain*, recalling his thirty days of captivity. Now, Schiller shares how he survived the ordeal, exploring the life lessons he learned during his time in the warehouse and during his recovery. In this uplifting and inspiring book, Schiller discusses the healing of his body, mind, and spirit and tells the story of how he found the strength to thrive. This book will inspire and uplift you to look at your life. This is the little book of wisdom you can carry and use for the rest of your life

Unleashing Your Dog Jul 18 2021 No matter how cushy their lives, dogs live on our terms. They compromise their freedom and instinctual pleasure, as well as their innate strategies for coping with stress and anxiety, in exchange for the love, comfort, and care they get from us. But it is possible to let dogs be dogs without wreaking havoc on our lives, as biologist Marc Bekoff and bioethicist Jessica Pierce show in this fascinating book. They begin by illuminating the true nature of dogs and helping us “walk in their paws.” They reveal what smell, taste, touch, sight, and hearing mean to dogs and then guide readers through everyday ways of enhancing dogs’ freedom in safe, mutually happy ways. The rewards, they show, are great for dog and human alike.

Room Dec 11 2020 Kidnapped as a teenage girl, Ma has been locked inside a purpose built room in her captor's garden for seven years. Her five year old son, Jack, has no concept of the world outside and happily exists inside Room with the help of Ma's games and his vivid imagination where objects like Rug, Lamp and TV are his only friends. But for Ma the time has come to escape and face their biggest challenge to date: the world outside Room.

The Emotional Lives of Animals Apr 02 2020 Based on award-winning scientist Marc Bekoff's years studying social communication in a wide range of species, this important book shows that animals have rich emotional lives. Bekoff skillfully blends extraordinary stories of animal joy, empathy, grief, embarrassment, anger, and love with the latest scientific research confirming the existence of emotions that common sense and experience have long implied. Filled with Bekoff's light humor and touching stories, *The Emotional Lives of Animals* is a clarion call for reassessing both how we view animals and how we treat them.

Generations of Captivity Jun 16 2021 Ira Berlin traces the history of African-American slavery in the United States from its beginnings in the seventeenth century to its fiery demise nearly three hundred years later. Most Americans, black and white, have a singular vision of slavery, one fixed in the mid-nineteenth century when most American slaves grew cotton, resided in the deep South, and subscribed to Christianity. Here, however, Berlin offers a dynamic vision, a major reinterpretation in which slaves and their owners continually renegotiated the terms of captivity. Slavery was thus made and remade by successive generations of Africans and African Americans who lived through settlement and adaptation, plantation life, economic transformations, revolution, forced migration, war, and ultimately, emancipation. Berlin's understanding of the processes that continually transformed the lives of slaves makes *Generations of Captivity* essential reading for anyone interested in the evolution of antebellum America. Connecting the Charter Generation to the development of Atlantic society in the seventeenth century, the Plantation Generation to the reconstruction of colonial society in the eighteenth century, the Revolutionary Generation to the Age of Revolutions, and the Migration Generation to American expansionism in the nineteenth century, Berlin integrates the history of slavery into the larger story of American life. He demonstrates how enslaved black people, by adapting to changing circumstances, prepared for the moment when they could seize liberty and declare themselves the Freedom Generation. This epic story, told by a master historian, provides a rich understanding of the experience of African-American slaves, an experience that continues to mobilize American thought and passions today.

Zoo Conservation Biology Mar 02 2020 In the face of ever-declining biodiversity, zoos have a major role to play in species conservation. Written by professionals involved in in situ conservation and restoration projects internationally, this is a critical assessment of the contribution of zoos to species conservation through evidence amassed from a wide range of sources. The first part outlines the biodiversity context within which zoos should operate, introducing the origins and global spread of zoos and exploring animal collection composition. The second

part focuses on the basic elements of keeping viable captive animal populations. It considers the consequences of captivity on animals, the genetics of captive populations and the performance of zoos in captive breeding. The final part examines ways in which zoos can make a significant difference to conservation now and in the future. Bridging the gap between pure science and applied conservation, this is an ideal resource for both conservation biologists and zoo professionals.

Beneath the Surface Jan 12 2021 A firsthand account of the lives of captive killer whales by one of SeaWorld's most experienced orca trainers and the star of *Blackfish* argues that their needs are not met in captivity and traces advocacy efforts comparing the lives of free and captive orcas.

Lessons from the Hanoi Hilton Dec 31 2019 Why were the American POWs imprisoned at the "Hanoi Hilton" so resilient in captivity and so successful in their subsequent careers? This book presents six principles practiced within the POW organizational culture that can be used to develop high-performance teams everywhere. The authors offer examples from both the POWs' time in captivity and their later professional lives that identify, in real-life situations, the characteristics necessary for sustainable, high-performance teamwork. The book takes readers inside the mind of James Stockdale, a fighter pilot with a degree in philosophy, who was the senior ranking officer at the Hanoi prison. The theories Stockdale practiced become readily understandable in this book. Drawing parallels between Stockdale's guiding philosophies from the Stoic Epictetus and the principles of modern sports psychology, Peter Fretwell and Taylor Baldwin Kiland show readers how to apply these principles to their own organizations and create a culture with staying power. Originally intending their book to focus on Stockdale's leadership style, the authors found that his approach toward completing a mission was to assure that it could be accomplished without him. Stockdale, they explain, had created a mission-centric organization, not a leader-centric organization. He had understood that a truly sustainable culture must not be dependent on a single individual. At one level, this book is a business school case study. It is also an examination of how leadership and organizational principles employed in the crucible of a Hanoi prison align with today's sports psychology and modern psychological theories and therapies, as well as the training principles used by Olympic athletes and Navy SEALs. Any group willing to apply these principles can move their mission forward and create a culture with staying power—one that outlives individual members.

Indian Captive Jul 30 2022 A Newbery Honor book inspired by the true story of a girl captured by a Shawnee war party in Colonial America and traded to a Seneca tribe. When twelve-year-old Mary Jemison and her family are captured by Shawnee raiders, she's sure they'll all be killed. Instead, Mary is separated from her siblings and traded to two Seneca sisters, who adopt her and make her one of their own. Mary misses her home, but the tribe is kind to her. She learns to plant crops, make clay pots, and sew moccasins, just as the other members do. Slowly, Mary realizes that the Indians are not the monsters she believed them to be. When Mary is given the chance to return to her world, will she want to leave the tribe that has become her family? This Newbery Honor book is based on the true story of Mary Jemison, the pioneer known as the "White Woman of the Genesee." This ebook features an illustrated biography of Lois Lenski including rare images and never-before-seen documents from the author's estate.

Animals Matter Mar 26 2022 Nonhuman animals have many of the same feelings we do. They get hurt, they suffer, they are happy, and they take care of each other. Marc Bekoff, a renowned biologist specializing in animal minds and emotions, guides readers from high school age up—including older adults who want a basic introduction to the topic—in looking at scientific research, philosophical ideas, and humane values that argue for the ethical and compassionate treatment of animals. Citing the latest scientific studies and tackling controversies with conviction, he zeroes in on the important questions, inviting reader participation with "thought experiments" and ideas for action. Among the questions considered: • Are some species more valuable or more important than others? • Do some animals feel pain and suffering and not others? • Do animals feel emotions? • Should endangered animals be reintroduced to places where they originally lived? • Should animals be kept in captivity? • Are there alternatives to using animals for food, clothing, cosmetic testing, and dissection in the science classroom? • What can we learn by imagining what it feels like to be a dog or a cat or a mouse or an ant? • What can we do to make a difference in animals' quality of life? Bekoff urges us not only to understand and protect animals—especially those whose help we want for our research and other human needs—but to love and respect them as our fellow beings on this planet that we all want to share in peace.

The Palgrave Handbook of Practical Animal Ethics Sep 27 2019 This handbook provides an in-depth examination of the practical and theoretical issues within the emerging field of animal ethics. Leading experts from around the globe offer insights into cutting edge topics as diverse as killing for food, religious slaughter, animal

companions, aquariums, genetic manipulation, hunting for sport and bullfighting. Including contributions from Lisa Johnson on the themes of human dominance, Thomas White on the ethics of captivity, Mark Bernstein on the ethics of killing and Kay Peggs on the causation of suffering, this handbook offers an authoritative reference work for contemporary applied animal ethics. Progressive in approach, the authors explore the challenges that animal ethics poses both conceptually and practically to traditional understandings of human–animal relations. Key Features: · Structured in four parts to examine the ethics of control, the ethics of captivity, the ethics of killing and the ethics of causing suffering · Interdisciplinary approach including philosophical, historical, scientific, legal, anthropological, religious, psychological and sociological perspectives · Focussed treatment of practical issues such as animals in farming, zoos and animal experimentation The Palgrave Handbook of Practical Animal Ethics is an essential resource for those with an interest in the ethics of modern-day treatment of animals as well as scholars, researchers and advanced students in zoology, philosophy, anthropology, religious studies and sociology.

Even Silence Has an End Oct 01 2022 "Betancourt's riveting account...is an unforgettable epic of moral courage and human endurance." -Los Angeles Times In the midst of her campaign for the Colombian presidency in 2002, Ingrid Betancourt traveled into a military-controlled region, where she was abducted by the FARC, a brutal terrorist guerrilla organization in conflict with the government. She would spend the next six and a half years captive in the depths of the Colombian jungle. *Even Silence Has an End* is her deeply moving and personal account of that time. The facts of her story are astounding, but it is Betancourt's indomitable spirit that drives this very special narrative—an intensely intelligent, thoughtful, and compassionate reflection on what it really means to be human.

Out of Captivity Nov 02 2022 Describes how the plane carrying the three American civilian contractors crash-landed in Colombia, their capture by the FARC, the five years that they spent as hostages of the guerrilla group, and their eventual rescue.

Indian Captive, Indian King Jun 04 2020 In 1758 Peter Williamson, dressed as an Indian, peddled a tale in Scotland about being kidnapped as a young boy, sold into slavery and servitude, captured by Indians, and made a prisoner of war. Separating fact from fiction, Timothy Shannon illuminates the curiosity about America among working-class people on the margins of empire.

Newts Aug 07 2020 Discusses the natural history, care, and breeding of seven kinds of newts.

The Ethics of Captivity May 28 2022 In the United States roughly 2 million people are incarcerated; billions of animals are held captive (and then killed) in the food industry every year; hundreds of thousands of animals are kept in laboratories; thousands are in zoos and aquaria; millions of "pets" are captive in our homes. Surprisingly, despite the rich ethical questions it raises, very little philosophical attention has been paid to questions raised by captivity. Though conditions of captivity vary widely for humans and for other animals, there are common ethical themes that imprisonment raises, including the value of liberty, the nature of autonomy, the meaning of dignity, and the impact of routine confinement on physical and psychological well-being. This volume brings together scholars, scientists, and sanctuary workers to address in fifteen new essays the ethical issues captivity raises. Section One contains chapters written by those with expert knowledge about particular conditions of captivity and includes discussion of how captivity is experienced by dogs, whales and dolphins, elephants, chimpanzees, rabbits, formerly farmed animals, and human prisoners. Section Two contains chapters by philosophers and social theorists that reflect on the social, political, and ethical issues raised by captivity, including discussions about confinement, domestication, captive breeding for conservation, the work of moral repair, dignity and an ethics of sight, and the role that coercion plays.

All That's Left to Tell May 16 2021 "Like Tim O'Brien's *Going After Cacciato*, *All That's Left to Tell* celebrates not just the power of storytelling but the deeply human need for it in even the most dire situations. Alternately gripping and dreamy, Daniel Lowe's debut imagines what the stories we tell reveal about ourselves, and how they may save us." —Stewart O'Nan, author of *West of Sunset* Every night, Marc Laurent, an American taken hostage in Pakistan, is bound and blindfolded. And every night, a woman he knows only as Josephine visits his cell. At first, her questions are mercenary: is there anyone back home who will pay the ransom? But when Marc can offer no name, she asks him a question about his daughter that is even more terrifying than his captivity. And so begins a strange yet increasingly comforting ritual, in which Josephine and Marc tell each other stories. As these stories build upon one another, a father and daughter start to find their way toward understanding each other again.

Long March to Freedom Feb 22 2022 Running late for work one morning in September 1994, Tom Hargrove, communications director for an international agricultural aid organization in Cali, Colombia, was mildly annoyed when he spotted a roadblock, or reten, manned by soldiers in fatigues. He chafed at the delay, but told himself that guerrillas and kidnappers didn't operate on a main highway in broad daylight. But Hargrove had been dreadfully mistaken. Despite his assertions that he worked for a non-profit agricultural agency, he was forced at gunpoint into a vehicle and driven into the mountains by communist narco-terrorists who believed he was a valuable hostage. For almost a year, Hargrove was held by the guerrillas and moved from one remote location to another. To maintain his

grip on sanity, he recorded his daily experiences in makeshift journals: in a checkbook; on children's notebooks; and on scraps of paper scrounged during his ordeal. Hargrove's story, originally published in 1995, was the basis for the major motion picture *Proof of Life*, starring Russell Crowe and Meg Ryan. Now available again in paperback, *Long March to Freedom* chronicles one man's spirited determination to hang onto life and faith amid nearly impossible circumstances.

Captive Apr 26 2022 On a fateful day in February 2002, campaign manager Clara Rojas accompanied longtime friend and presidential hopeful Ingrid Betancourt into an area controlled by the powerful leftist guerrilla group, the Revolutionary Armed Forces of Colombia (FARC). Armed with machine guns and grenades, the FARC took them hostage and kept them in the jungle for the next six years. After more than two years of captivity deep in the Colombian jungle, surrounded by jaguars, snakes, and tarantulas, miles from any town or hospital, Clara Rojas prepared to give birth in a muddy tent surrounded by heavily armed guerrillas. Her captors promised that a doctor would be brought to the camp to help her. But when Rojas went into labor and began to suffer complications, the only person on hand was a guerrilla wielding a kitchen knife. The guerrillas drugged Rojas with anesthetic while one of them slit open her abdomen. Her son, Emmanuel, was born by amateur cesarean section in April 2004. His survival was miraculous, but her joy was soon cut short when the FARC took him from her when he was only eight months old. For the next three years, Clara was given no information about him, but her desire to one day see him again kept her alive. In early 2008, Clara was finally liberated and reunited with her son—to whom this book is dedicated.

Hostage Nation Dec 23 2021 A blistering journalistic exposé: an account of government negligence, corporate malfeasance, familial struggle, drugs, politics, murder, and a daring rescue operation in the Colombian jungle. On July 2, 2008, when three American private contractors and Colombian presidential candidate Ingrid Betancourt were rescued after being held for more than five years by the Revolutionary Armed Forces of Colombia (FARC), the world was captivated by their personal narratives. But between the headlines a major story was lost: Who exactly are the FARC? How had a drug-funded revolutionary army managed to hold so many hostages for so long? Had our costly War on Drugs failed completely? *Hostage Nation* answers these questions by exploring the complex and corrupt political and socioeconomic situations that enabled the FARC to gain unprecedented strength, influence, and impunity. It takes us behind the news stories to profile a young revolutionary in the making, an elite Colombian banker-turned-guerrilla and the hard-driven American federal prosecutor determined to convict him on American soil, and a former FBI boss who worked tirelessly to end the hostage crisis while the U.S. government disregarded his most important tool—negotiation. With unprecedented access to the FARC's hidden camps, exceptional research, and lucid and keen insight, the authors have produced a revelatory work of current history.

Cervantes in Algiers Feb 10 2021 Returning to Spain after fighting in the Battle of Lepanto and other Mediterranean campaigns against the Turks, the soldier Miguel de Cervantes was captured by Barbary pirates and taken captive to Algiers. The five years he spent in the Algerian bagnios or prison-houses (1575-1580) made an indelible impression on his works. From the first plays and narratives written after his release to his posthumous novel, the story of Cervantes's traumatic experience continuously speaks through his writings. *Cervantes in Algiers* offers a comprehensive view of his life as a slave and, particularly, of the lingering effects this traumatic experience had on his literary production. No work has documented in such vivid and illuminating detail the socio-political world of sixteenth-century Algiers, Cervantes's life in the prison-house, his four escape attempts, and the conditions of his final ransom. Garces's portrait of a sophisticated multi-ethnic culture in Algiers, moreover, is likely to open up new discussions about early modern encounters between Christians and Muslims. By bringing together evidence from many different sources, historical and literary, Garces reconstructs the relations between Christians, Muslims, and renegades in a number of Cervantes's writings. The idea that survivors of captivity need to repeat their story in order to survive (an insight invoked from Coleridge to Primo Levi to Dori Laub) explains not only Cervantes's storytelling but also the book that theorizes it so compellingly. As a former captive herself (a hostage of Colombian guerrillas), the author reads and listens to Cervantes with another ear.

Orcapedia Oct 09 2020 ORCAPEDIA presents a sobering look at the current imprisonment of a highly intelligent, socially complex, non-threatening species—orcas—by an industry strictly for profit. Many remember the movement to release Keiko, the orca who appeared in the family drama *Free Willy*, into the wild. Today, there are dozens of other orcas still in captivity. Readers are introduced to more than 60 orcas by name along with colored photos, personal history, and notable incidents that have occurred during their captivity. The text makes it clear that captured orcas are imprisoned “inmates” and instills a full understanding of the injustices being perpetrated. Five pages of headstones of deceased orcas graphically illustrates the problems they face. Resources and recommendations on alternative interactions with orcas are provided. One of the authors, Captain Paul Watson, is the founder of the Sea Shepherd Conservation Society and has worked on the front line for decades trying to protect the ocean's wildlife.

Brains On! Presents...It's Alive Aug 26 2019 The creators of the award-winning science podcast for kids, *Brains*
