**Blood Highways** Oct 11 2020 Blood Highways is the heart-wrenching account of the biggest product liability case in history: the Ford-Firestone fiasco. At the center of the story are two people: Tab Turner, a charismatic trial attorney from Arkansas, who has made a career out of forcing Ford and other automakers to own up to knowingly trade human lives for profits; and Donna Bailey, a single mother and outdoor enthusiast who fought back from the brink of death to confront those ultimately responsible for her accident. Weaving together harrowing depictions of the accidents and their consequences with the stories of the men and women who labor to police the auto industry and its reckless cost-cutting, Blood Highways will transform the way you view corporations, the government, the courts, and the media. Above all, this book shows the price the public pays in wrecked and mangled lives when companies focus more on shaving costs than making quality products.

**Stay Jun 18 2021** In a nutshell. Mind travel is a reality. Beings from all over the universe work together as operatives for the Inter Galactic Council to maintain peace. However, components of the original mind transfer device, which could also alter the mind permanently, have been found. The council fears that a crucial component containing the circuitry for the device has been seen on the planet Tishog and if it falls into the wrong hands, mind control would be a possibility, making it possible to change the course of history in favour of those in control of the device. The council, therefore, must retrieve it first to ensure universal safety. Frank Melton, a reluctant operative from Earth, teams up with other operatives to retrieve the missing piece. Opening. Bankrupt and remorseful, Frank Melton tries to get his life together, two years after losing his job. He decides to practice meditation to help him to relax and to guide his thoughts during the healing period. During this time, he has unexpected and unexplainable visions, which unnerve him at first, but after a series of 'tests' he comes to realize that the visions were indeed due to his mind being transferred to a host body on the planet, Trellin. He is forced to keep his involvement secret, since leaders on Earth were not aware of such advanced technology and it was thought by the council that such knowledge held by a developing planet may cause chaos. If he disclosed his involvement to anyone, his memory would be wiped of all participation. Closing. A sample of a drug that can render an operative 'comatose' is retrieved by an 'all-Earth' team of operatives. An operative known by Frank only as "Tolok" approaches Frank for support, should he need it when they return to earth. The mission is successful and Frank is asked by Howard and an elder from Trellin to save the incarcerated Tolok, since he had been without food for three days, kept alive only by his controller which was losing energy. However, Frank is not told the circumstances behind Tolok's internment. Frank struggles with the non-committal manner exercised by Howard and the elder and begins to doubt whether he wants to continue to participate with the program. Saving Tolok adds fuel to his thoughts since Tolok proved to be a serial rapist and child molester. The three books on one page. Book one: Summarized above. Book two: Frank is still considering whether or not he wants to continue with the operative program when Howard, an intelligent robot, asks Frank to help save a fellow operative and friend, Tim, who had been rendered comatose on the planet, Tishog. As a consequence to Frank's gallant action, he and Tim pair up for future operations which continue to be involved with finding the missing components of the 'mind control' device, though this time, they are up against more sophisticated and advanced communities. Frank also suspects that a friend, Gabrielle, is also an operative, but for who? Could she be working with the rival group, Deltrum, and enemy of the Intergalactic Council? Frank and Tim also become suspicious of the elders of Trellin, suspecting that they want the device for their own gain, but proof thus far has eluded them. Frank once again takes time away from the program to reconsider his involvement. Book three: Frank develops a 'virus' which effectively prevents his controller from reporting erroneous thoughts to the elders. He gains the trust of Gabrielle and with Tim, the three operatives foil a plot by the elders on Trellin to alter the minds of earth leaders (including the military) and to take control of the planet, since Trellins resources are depleted.

**Southern Pacific Railroad in Eastern Texas Dec 25 2021** The Southern Pacific Railroad and its predecessors served Texas from 1853 to 1996. Stretching from El Paso to the Louisiana border and from the Rio Grande Valley to the Red River, Southern Pacific opened up vast areas of the state to settlement

by transporting people, building materials, and livestock. The railroad fueled Texas's economy by moving oil, timber, agricultural commodities, coal, automobiles, petrochemicals, cement, steel, consumer goods, and myriad other products. It hauled the marble that built the state capitol in Austin and the materials to build the massive seawall in Galveston. Southern Pacific also played an important role in developing the ports of Beaumont, Galveston, Houston, and Corpus Christi. This book is a photographic record of Southern Pacific in eastern Texas during the 50-year period following World War II to the 1996 merger with the Union Pacific Railroad.
