The Revolution According to Raymundo Mata
Mar 28 2020 Revealing glimpses of the Philippine Revolution and the Filipino writer Jose Rizal emerge from the pages of the worst efforts of feuding academics in Apostol's hilariously erudite novel, which won the Philippine National Book Award. Gina Apostol's riotous second novel takes the form of a memoir by one Raymundo Mata, a half-blind bookworm and revolutionary, tracing his childhood, his life in Manila, his love affairs, and his discovery of writer and fellow revolutionary, Jose Rizal. Mata's 19th-century story is complicated by present-day foreword(s), afterword(s), and footnotes from three fiercely quarrelsome and comic voices: a nationalist editor, a neo-Freudian psychoanalyst, and a translator, Mimi C. Magsalin. In telling the contested and fragmentary story of Mata, Apostol finds new ways to depict the violence of the colonial era, and to reimagine the nation's great writer, Jose Rizal, who was executed by the Spanish for his revolutionary activities, and is credited by many to be the father of Philippine independence. The Revolution According to Raymundo Mata offers an intoxicating blend of fact and fiction, uncovering lost histories while building dazzling, anarchic modes of narrative.

Accessibly written and comprehensive, Analyzing Grammar is set to become a key text for students in grammatical analysis.

Studio Art Therapy Mar 16 2021 Arguing that the profession of art therapy has its roots in the studio environment, Catherine Moon proposes it is now time to reclaim these roots, and make art once again central to art therapy. She suggests that there has been a tendency for art therapy to interact with and be enriched by other perspectives - psychological, social, anthropological and transpersonal - but to be subsumed by them. For this reason she makes a clear distinction between using art in one's practice of therapy, and working from an art-based model. This book presents an art therapy where the products and processes of art constitute the core of the model, rather than serving as the impetus for adaptations of counselling or therapy. It addresses how an arts-based approach can inform the therapist in all aspects of practice, from the conception of the work and the attempt to understand client needs to interacting with clients and communicating with others about the profession of art therapy. The book contains stories about the work of art therapists, art therapy students and those who seek help in art therapy, presenting the theory behind art therapy and bringing it to life. Moon believes that the arts have something unique to offer to the therapeutic process which distinguishes them from other therapeutic professions. This book is a comprehensive and engaging exploration of the possibilities inherent in the therapeutic use of art.
