Song King Apr 26 2022 When itinerant singers from China's countryside become iconic artists, worlds collide. The lives and performances of these representative singers become sites for conversations between the rural and urban, local and national, folk and elite, and traditional and modern. In Song King: Connecting People, Places, and Past in Contemporary China, Levi S. Gibbs examines the life and performances of "Folksong King of Western China" Wang Xiangrong (b. 1952) and explores how itinerant performers come to serve as representative symbols

straddling different groups, connecting diverse audiences, and shifting between amorphous, place-based local, regional, and national identities. Moving from place to place, these border walkers embody connections between a range of localities, presenting audiences with traditional, modern, rural, and urban identities among which to continually reposition themselves in an evolving world. Born in a small mountain village near the intersection of the Great Wall and the Yellow River in a border region with a rich history of migration, Wang Xiangrong was exposed to a wide range of songs as a child. The songs of Wang's youth prepared him to create a repertoire of region-representing pieces and mediate between regions, nations, and multinational corporations in national and international performances. During the course of a career that included meeting Deng Xiaoping in 1980 and running with the Olympic torch in 2008, Wang's life, songs, and performances have come to highlight various facets of social identity in contemporary China. Drawing on extensive fieldwork with Wang and other professional folksingers from northern Shaanxi province at weddings, Chinese New Year galas, business openings, and Christmas concerts, Song King argues that songs act as public conversations people can join in on. As song kings and queens fuse personal and collective narratives in performances of iconic songs, they provide audiences with compelling models for socializing personal experience, negotiating a sense of self and group in an ever-changing world.

King Lear Apr 02 2020 *King Lear* is a tragedy by Shakespeare, written about 1605 or 1606. Shakespeare based it on the legendary King Leir

of the Britons, whose story is outlined in Geoffrey of Monmouth's pseudohistorical History of the Kings of Britain (written in about 1136). The play tells the tale of the aged King Lear who is passing on the control of his kingdom to his three daughters. He asks each of them to express their love for him, and the first two, Goneril and Regan do so effusively, saying they love him above all things. But his youngest daughter, Cordelia, is compelled to be truthful and says that she must reserve some love for her future husband. Lear, enraged, cuts her off without any inheritance. The secondary plot deals with the machinations of Edmund, the bastard son of the Earl of Gloucester, who manages to convince his father that his legitimate son Edgar is plotting against him. After Lear steps down from power, he finds that his elder daughters have no real respect or love for him, and treat him and his followers as a nuisance. They allow the raging Lear to wander out into a storm, hoping to be rid of him, and conspire with Edmund to overthrow the Earl of Gloucester. The play is a moving study of the perils of old age and the true meaning of filial love. It ends tragically with the deaths of both Cordelia and Lear—so tragically, in fact, that performances during the Restoration period sometimes substituted a happy ending. In modern times, though, King Lear is performed as written and generally regarded as one of Shakespeare's best plays. This Standard Ebooks edition is based on William George Clark and William Aldis Wright's 1887 Victoria edition, which is taken from the Globe edition. This book is part of the Standard Ebooks project, which produces free public domain ebooks.
