Introduction to Geophysical Fluid Dynamics Feb 10 2021 This book provides an introductory-level exploration of geophysical fluid dynamics (GFD), the principles governing air and water flows on large terrestrial scales. Physical principles are illustrated with the aid of the simplest existing models, and the computer methods are shown in juxtaposition with the equations to which they apply. It explores contemporary topics of climate dynamics and equatorial dynamics, including the Greenhouse Effect, global warming, and the El Nino Southern Oscillation. Combines both physical and numerical aspects of geophysical fluid dynamics into a single affordable volume Explores contemporary topics such as the Greenhouse Effect, global warming and the El Nino Southern Oscillation Biographical and historical notes at the ends of chapters trace the intellectual development of the field Recipient of the 2010 Wernaers Prize, awarded each year by the National Fund for Scientific Research of Belgium (FNR-FNRS).

How to Paint Your Car on a Budget Jan 12 2021 If your car needs new paint, or even just a touch-up, the cost involved in hiring a professional can be more than you bargained for. Fortunately, there are less expensive alternatives--you can even paint your car at home! In How to Paint Your Car On A Budget, author and veteran DIY hot rodder Pat Ganahl unveils dozens of secrets that will help anyone paint their own car. From simple scuff-and-squirt jobs to fullon, door-jamb-and-everything paint jobs, Ganahl covers everything you need to know to get a great looking coat of paint on your car and save lots of money in the process. This book covers painting equipment, the ins and outs of prep, masking, painting and sanding products and techniques, and real-world advice on how to budget wisely when painting your own car. It's the most practical automotive painting book ever written!

Church Administration and Finance Manual Aug 26 2019 A field-tested, pragmatic, and resourceful guide to the daunting and logistically complex management of local church. Pastors generally feel equipped to deal with biblical studies, theological questions, preaching responsibilities, and pastoral care. But when it comes to budgets, insurance, fire safety, and church management many find themselves at a loss. Often lay leaders within the congregation flounder with these tasks as well. Here, finally, is the ultimate reference guide for the practical management of the parish. Originally created as a sourcebook for the authors' week-long course on church management and administration at the Claremont School of Theology, the manual in draft version has been field-tested by hundreds of pastors and lay leaders. Not simply a theoretical resource, the Manual provides suggestions for almost every aspect of parish administration: position descriptions, various financial forms, materials for stewardship and Christian education, building use and safety issues, employee record keeping, and much more. Whether pastors are just out of seminary or well-seasoned in

parish life, the Manual is full of excellent guidelines, tools, and forms for improving the management of the parish.

The Complete Idiot's Guide to Motor Scooters Jun 28 2022 The standard mode of transportation for decades in Europe, motor scooter was a cult "fun" vehicle in the USA until the past two years. With oil prices soaring and the 20-to-40 set looking for alternative means of commuter (and weekend cruising) travel, motor scooter have exploded across the United States. In 2001, less than 30,000 scooters cruised U.S. roadways. In 2005, over 100,000 are road-bound, and the number is growing by double digits each year. Beginning at \$1,000 and ranging up over \$5,000, dozens of models of scooters are available, as are thousands of accessories. And scooter clubs meet from San Diego to Bangor, Maine. Every year, the largest gathering of motor scooters takes place in Indianapolis, speed capital of the world. The Complete Idiot's Guide to Motor Scooters is the perfect introduction to the wonderful world of motor scooting.

Untitled Book 2 Mar 02 2020 Identical twin sisters Freya and Shona take very different paths, leading to long-buried family secrets that reverberate through the generations in this thrilling novel of psychological suspense by the author of Tell Me How It Ends. There are some choices you can't come back from. It is 1944 in war-ravaged London. Freya and Shona are identical twins, very close despite their different characters. Freya is a newly qualified doctor tending to the injured in a London hospital, while Shona has been recruited by the SOE. The sisters are so physically alike that they can fool people into thinking that one is the other. It's a game they've played since childhood. But when Shona persuades her twin to swap roles to meet her Polish lover, he is angered at being tricked. Then Shona proposes a far more dangerous swapping of roles. At first Freya refuses but finally she agrees, with consequences so dangerous that they threaten not only the happiness but the lives of both sisters. Forty-five years later in November 1989 Freya, now aged 69, is watching television with her daughter Kirsty. Freya is gripped as she witnesses crowds of Berliners attempting to knock down their hated Wall. This sight stirs long buried memories of her own war and her sister's, and of events in wartime Poland - memories that she has never shared with anyone. Even if she wanted to reveal them now, she couldn't. She's suffering from a brain tumour and is unable to speak although her reason is unimpaired. And this is what she's thinking: if they succeed in knocking down the Wall, what secrets will come tumbling through? If her own were revealed, it would be devastating for all those close to her, especially her daughter.
